EDITORIAL BRIEFS.

A PROHIBITION tent is now pitched in Tyrone.

MR. CLEVELAND has not yet formally accepted the nomination.

No toll is collected on any road or bridge within the borders of Clearfield county.

FOREIGN contract labor is certainly one of the great evils of the time and every effort should be made to stop it.

FORTY-SIX million seven hundred and fifty barrels were produced in this country last year, valued at 50 cents per barrel.

THE total value of mineral productions last year in this country was $538,056,345. This is an increase of $73,000,000 over that of 1886.

THE Democratic papers have forgotten one of their chief missions—that of stating that James G. Blaine is ill and will not live much longer.

THE Duke and Duchess of Marlborough having gone through another marriage ceremony, just to make sure that they are married, will probably not feel offended if they are referred to as a much-married couple.

EVERY day brings news of new floppers in New York State from Cleveland to Harrison. Judge Kelley said he believed Harrison's majority in that state will be 75,000, but we would not be surprised at 100,000.

THIS paper merely stated the truth in regard to the existence of gold in the Karthaus region. It is only the correspondents of city papers who state that great excitement exists in that region. The latter is not the truth.

THE duty on corn is 10 cents per bushel, wheat 20, barley 10, oats 10, rye 10, potatoes 15, hay $2,00 per ton, tabacco 35 cents per pound, rice 1½ and sugar 2. The total amount of these articles used in the United States are protected to the amount of $527,943,700.

THE Republican ladies of York, Pa., are interested in their party. At an expense of $700 they built a large log cabin which they presented to the Republican club as its headquarters. It is exactly adapted for the purpose and is a reminder of Tippecanoe days.

IT IS now said that reports about Congressman Scott's sickness were exaggerated. Not so, however, about the dumps he is in. He has been so far pacified as to come out of his hole, and will proceed to New York in a few days to take an active part in the campaign. He has concluded not to carry Pennsylvania for Cleveland this time!

LEVI P. MORTON is not a director in any Canadian railroad company, but Wm. L. Scott is. Mr. Morton was one but resigned. The *Sun* asks: "Has anybody authority to announce that the Hon. William Lawrence Scott of Erie has concluded to resign from the Canadian Pacific directory, or that his resignation has already gone to Montreal?"

THE Prohibitonists, in their platform declared straight out for free whisky, without a why or wherefore, but the New York *Post* does not seem to have heard of it. The Republicans, in their platform, said that rather than see American industries go down they would give up their whisky tax; and the *Post* lies awake nights to cry aloud that free whisky is the corner stone of the Republican platform!

THE TRUTH TOLD TO FARMERS.

The *Press* has been called upon by no less than six readers to reply to that foot-in-the-grave old chestnut about the farmer being taxed 95 per cent, on his flannel shirt, 57 per cent on his coat, etc. Incredible as it may seem to intelligent people, the Democratic National Committee is insulting the intelligence of the farmers of this State by circulating these exploded relics of free trade argument:

"Under this tariff the farmer rises in the morning, puts on his common flannel shirt taxed 95 per cent; his coat taxed 57 per cent; shoes 35 per cent; and hat taxed 92 per cent; takes the water from a bucket taxed 35 per cent, washes his face and hands in a tin bowl taxed 35 per cent· dries them on a cheap cotton towel taxed 45 per cent.

"He sits down to his humble meal and eats from a plate taxed 50 per cent, with a knife and fork taxed 35 per cent; drinks his coffee with sugar taxed 68 per cent; seasons his food with salt taxed 69 per cent; pepper taxed 61 per cent.

"He looks around on his wife and children all taxed in the same way; takes a chew of tobacco taxed 199 per cent, or lights a cigar taxed 118 per cent. And, sir, even the sun light from Heaven that pours into his humble dwelling must come through window glass taxed 59 per cent, and yet he thinks he lives in the freest government under Heaven.

"Then he starts to work; puts a bridle taxed 35 per cent, on his horse, takes his horse that has been shod—the nails used in shoeing being taxed 52 per cent driven by a hammer taxed 20 per cent—and hitches him to a plow taxed 45 per cent, with chains taxed 58 per cent and after the day's labor is closed and his family are all gathered around, he reads a chapter from his Bible taxed 25 per cent, and kneels to God on an humble carpet taxed 51 per cent, and then he rests his weary limbs on a sheet taxed 45 per cent and covers himself with a blanket that he has paid 104 per cent.

"Even the broom with which his good wife sweeps the floor is taxed 35 per cent, and the cooking vessels used in preparing the husband's frugal meals are taxed 42 per cent and the soda used to lighten his bread taxed 59 per cent. She sits down to her sewing machine with a needle taxed 25 per cent and a spool of thread taxed 74 per cent to make a calico dress taxed 58 per cent; or if she wishes to knit a warm pair of socks to protect her husband and children from the bitter cold she uses yarn taxed 120 per cent."

The object of this shallow circular is to make the farmer believe the free trade theory enunciated by Grover Cleveland that the price of the domestic product is increased by exactly the amount of the duty.

Here is the practical outcome of the concentrated wisdom of the National Committee. A common flannel shirt costs in England 3s. 6d. or 84 cents. The cost here would therefore be nearly double, or $1.68. The actual price is $1.

A common suit of clothes costs in England 30s. or $6.50. The cost here, therefore, would be $12.50. The actual cost is $7.50, same as in England. An all wool $10 suit such as that exhibited by Major McKinley costs just £2, or $10 in London.

In England common boots cost 6s. [$1.50] and fair ones 10s. ($2.50). Instead of costing one third more here the price is $1 25 for well made brogans and $2.50 for fair boots.

A 3s 6d (84 cents) hat in England can be got here for $1, and it does not cost nearly $2, as asserted.

A tin bowl costing 10d, or 20 cents; in England can be got here for about the same price, or at most 25 cents. On the other hand, kitchen utensils as a whole are cheaper in this country than in England, our ingenuity in making such articles being greater than it is in England.

A cheap cotton towel in this tax ridden land, quality for quality, costs less here than in England. The *Press* can prove this to the satisfaction of all Democratic liars.

The lie about thread is a stable and unprofitable one. Here is what the Grafton Linen Mills, who have places on both sides of the Atlantic, say on this subject: "We sell a large proportion of the product of our mills at Grafton, Mass., at prices that are as low absolutely as prices obtained in Britain for simular qualities made at our mills in Johnstone, Scotland." Wages here are 100 per cent, higher.

All knit goods are cheaper here than in England, especially jerseys such as women wear. So are the commoner grades of stockings and socks.

American farming implements of all kinds are exported and sold in competition with English. They are better, more ingeniously made, more durable and cheaper than the farming implement of any country in the world.

American cutlery is imported by and sold in England. Does not this prove that the price is not higher than English cutlery? Pottery and window glass cost one third what they did when we depended on England to manufacture these articles for us. The difference in the price to-day is not the duty.

Sugar is a Democratic industry, and rice "taxed" 102 per cent. is carefully ignored. The Republicans repealed half the internal tax on tobacco in 1883, and would have repealed the balance last session, only Speaker Carlisle refused to recognize Judge Kelley for this purpose. What folly, therefore, to talk about 199 per cent on chewing tobacco. In free trade England the workman pays 1,200 per cent on his tobacco.

Blankets vary in cost here from $1 to $5 a pair. The retail price in England is practically the same and the blankets compare favorably; that is, a pair of $5 blankets here would cost about £1, its equivalent in England. The government, in a recent purchase of blankets made abroad, discovered that the difference in the price was only 30 cents a pair.

A calico dress can be bought in this country as low as 6 cents per yard, a sum equivalent to the duty: If the price is increased by the amount of duty, calico dresses cost nothing in England. And yet the people go ragged. The fact is they cost more in England than here. And this is true of all staple cotton goods. A stuff dress can be bought here as low as 10 cents, and the duty is 17 cents. Thus on the theory that the duty is a "tax," in England these dresses are given away and 7 cents a yard bonus for taking them.

An example even more astonishing is found in the fact that while chloroform is subject to a duty of 50 cents a pound, the domestic article is selling in this country for 35 cents a pound, or actually for 15 cents a pound less than the duty!

Turning to hardware we find the present price of steel rails in this country is $33 a ton. The duty is $17 and the freight $2 50, altogether making $19.50, the tax on imported rails. This deducted from $33 leaves $13 50, which should be the British price of steel rails, if the President's theory is correct. But the British price is, in fact, $20, instead of $13.50.

Further, the steel rail industry in this country was built up under a duty of $28 a ton. In 1885 steel rails were sold here for $27, just one dollar less than the original duty.

Take another illustration. The price of cut nails in Philadelphia is $2.00 for a keg of 100 pounds. The duty on cut nails is $1.25 If the above proposition be correct, cut nails should be bought in Europe for 75 cents a keg. In fact they cannot be bought anywhere on earth for less than $1.50 a keg.

Again, cut nails have been sold in this country as low as $1.85 a keg of 100 pounds, while the duty was $1.50 a keg. Thus, according to the Democratic circular, cut nails must then have been purchasable in Europe for 35 cents a keg.

Three ply carpets are sold in England at 2s. 6d., or 62½ cents per yard. Add 50 per cent. "taxes" to this and the price would be 93¾ cents per yard. Yet you can buy better and more artistic carpets at Dobson's on Sloane's for 62½ cents per yard than you can for the same money in England.

And so it is with every article of general consumption which the masses of the people buy. As for the cost of the Bible the Democrats who get up such literature as the above are not likely to pay that tax. Bibles are plentiful and cheap. The *Press* will not answer these back number questions again this campaign, so those interested will please paste this in their scrap books and stop sending the circular to the *Press*. We are too busy grappling with live issues to dip into ancient history and answer statements which on their face presuppose the farmers of the country to be fools.

They are not, but know more about this than the free traders who try to instruct them.—*N. Y. Press.*

MAXWELL HANGED.

Maxwell, the Englishman who murdered his companion, Preller, and also a man named Landgraf, were hanged in St. Louis on Friday.

A telegram thus describes the closing scenes:

There was no time lost in reaching the scaffold, which the condemned ascended without assistance. Maxwell was placed under the noose next Twelfth street. Father Tihan read prayers. Maxwell was then asked if he had anything to say, and in an almost inaudible tone responded, "No." Landgraf merely shook his head· The black caps were being drawn when Landgraf slipped backward, but promptly recovered. There was an awful look of despair on Maxwell's face as the cap hid it from view and his knees showed weakness. The nooses were adjusted quickly and at 8.56 the drop fell. Landgraf never moved, nor did a muscle twitch. Not so with Maxwell. When he fell his breast heaved convulsively and his limbs were drawn upward, while the spectators were shocked by a stream of blood pouring down the right breast of his coat, which was afterward found to have been caused by a cut on the nose inflicted by the rope in some mysterious way·

Landgraf was pronounced dead in eleven minutes. Maxwell's struggles continued for fourteen minutes when he, too, was pronounced dead by the attending physicians. Landgraf was cut down at 9.11; Maxwell at 9.15. The bodies were removed to the morgue office and photographed, after which the post mortem was commenced. It was stated by the physicians that the neck of each man was broken.

TARIFF ON POTATOES.

Some of our free trade democratic farmers say, they don't believe in being taxed by a protective tariff for the benefit of manufacturers.

Such farmers must be ignorant of the fact that the republican party removed all state taxes from real estate, and put a protective tariff of fifteen cents on every bushel of potatoes and ten cents on every bushel of wheat imported into the country. According to free trade logic, if it was not for that republican tariff, which the democrats want to repeal, farmers would now be receiving fifteen cents less per bushel on potatoes and ten cents less per bushel on wheat than the present market price.

In fact, the republican party has always given better protection to farming than any other industry, and yet, there are those of that class so blinded by partisan prejudice that year after year they vote against their own financial and social welfare.

THE New York *World*, last week, prepared an issue which was unusually full of Democratic falsehoods (sometimes, by courtesy, called political editorials) and sent copies of them to every part of the county with the request that 2,000 copies be ordered for circulation in each county as campaign documents. We believe it offered to send 2,000 copies to each county during the campaign for $25. A copy, accompanied by this magnificent offer, came to this office. After mature consideration we have concluded not to invest. The regular Democratic papers of this county are sufficiently skilled in their work of political misrepresentation and do not need any help from the *World* or any other source. Besides, the people, having become disgusted with such material, are deserting the Democratic papers and are subscribing for this paper, as it has the best reputation for accuracy and truthfulness. Mr. *World*, your great offer is not appreciated.

THE quantity of domestic iron ore consumed in 1887 in the United States was about 11,300,000 long tons, value at mines $33,900,000. This is an increase over 1886 of 1,300,000 tons in quantity and $5,900,000 in value. Imported iron ore consumed, 1,194,301 long tons; total iron ore consumed in 1887, about 12,494,148, long tons or 1,454,868 tons more than in 1886. Pig iron made 6,417148 long tons; value at furnace, $121,925'800. This is an increase over 1886 of 733,819 tons in quantity and $16,730,040 in value. Steel of all kinds ptoduced. 3,339,071 long tons an increase of 776,569 tons over 1886; value at works, $103,811,000. Total spot value of all iron and steel in the first stage of manufacture, excluding all duplications, $171,103,000, an increase of 28,603,050, as compared with 1886. Limestone, used as flux in the manufacture of pig iron in 1887, about 5,377,000 long tons; value at quarry, about $,3226,200.

THE total production of coke in the United States last year was 7,857,407 short tons, valued at $15,723,573. This is the greatest production ever reached.

ENTHUSIASTIC DEMONSTRATIONS.

All the ardor and enthusiasm of this campaign seems to be confined to the Republican party. The fact is, the free trade vs. protection issue has taken with the people and they have entered into it, at least, on the defensive, with heart and soul.

The parties who first began the warfare on the policy of this country have not elicited a hearty support and Watterson, Carlisle, Mills and Cleveland stand almost alone. Indeed, the one last mentioned is rumored, even now, to be deserting the cause. What will his letter of acceptance bring forth? Or will he accept at all? The masses of the party cannot enter with any earnestness into a campaign which they half believe will tear down what our forefathers so grandly built up.

But what an enthusiasm does the Republican party and its champions elicit! Men, in every direction, are interested. They are not slow to detect in this specious but bold attack on the policy of the country the same spirit which prevailed during the Rebellion. They see that the support the Democratic party is receiving from outside nations is exactly the same that the South received during the war. The wolf may wear the lion's skin but neverth eless he is a wolf.

They can see his teeth, they can hear his howl of rage· They can see the dangerous glitter of his eyes. Thus prepared they will give him a hot reception. The fight may be a hard one, but victory for the Party of Patriotism is as certain as it was during the Rebellion.

See now the glittering hosts walking to the home of Candidate Harrison. Hear the tramp, tramp, tramp in the streets of New York City to welcome the great American, Mr Blaine. Study if you please, the array of figures printed freely to prove that a protective policy is what has established our country on firm and enduring foundations. Prove to yourself that all classes are equally protected. Study our greatness as a Nation, due not entirely to location and a mixture of different people, but a policy of defense enforced upon us because the early settlers fled here from the avenging wrath of inveterate enemies. Now we stand leaders in wisdom, progress and wealth—an unexampled growth. Having foolishly elevated to the chief place of state a man who is destitute of character, he has yielded to the offers of gold made by England to foist upon his party a free trade policy. In doing so he was supported by Mills, Breckinridge and a few other men who have not forgiven the North for suppressing the rebellion twenty years ago. In the face of these circumstances every patriotic spirit in either party should aid in the election of Harrison and Morton who are the champions of a true American patriotic policy.

THE Altoona *Tribune* has these comments to make on military encampments: "The military encampment in Pennsylvania is no longer a mere holiday frolic. The thorough organization of the National Guard upon a strictly military basis has made the summer camp schools in which the citizen soldiers of the commonwealth receive valuable instruction. No state in the Union has so splendidly equipped and drilled a body of troops as Pennsylvania and every year is adding to their efficiency. The improvement within the last decade has been marvelous, and if scenes like those of 1877 were to again occur the state troops would give a far better account of themselves than they did in that eventful year. For the improvement wrought the state authorities and the brigade, regimental and company commanders, who have worked harmoniously together, deserve much praise. Nor must the willing obedience of the rank and file be forgotten."

WE believe there is a vast amount of common sense about many Democrats and hence must conclude that away down deep in their hearts there is a belief in the accuracy of the doctrine of protection to American industries. Therefore, in endorsing the Mills bill and Cleveland's message, they are doing injustice to themselves, because the message is an outright free trade document. But they do so because they must either concede that their first attempt to give the nation a Democratic administration was a failure or else they must agree with their President. They grasped the latter horn of the dilemma and thus are stultifying themselves. But they value the good of their country rather than the mere power of their party and will vote for what they know to be right, even though they do not believe in announcing the fact to the world. We hope that every voter among them will rise to the dignity of his manhood by voting for Harrison.

THE present policy of what is generally known as the Democratic party is so opposite to what is real democracy that the party should drop that title and be content to be called Cleveland's free trade flock.

Poetry.

There was a sign upon a fence -
The sign was 'Paint,"
And everybody that went by,
Sinner and saint,
Put out a finger, touched the fence,
And onward sped;
And as they wiped their finger-tips,
"It is," they said.

—They stood beside the cottage door,
The youth and fair-faced miss;
'Twas night and dark—he asked her for
A kiss.

Tho' I must answer no, said she,
I will this statement make;
No man should ask for that which he
Could take.

—August, month when summer lies
Sleeping under sapphire skies;
Open all the windows wide,
Drink the orchard's fragrant tide—
Breathe the grass at morning mown
Through the leafy vistas blown—
Hear the clinking of the scythe
Sound mellifluent and blithe.
August month when everywhere
Music floats upon the air
From the harps of minstrel gales.
Playing down the hills and dales.
August, month when sleepy cows
Seek the shade of spreading boughs
Where the robin quirks his head
Contemplating cherries red;
August, month of twilight when
Day half goes, and comes again;
August days are guards who keep
Watch while summer lies asleep.

Our Story Teller

THE CURSE OF GOLD

"How do you like her, Jud?" Young Dr. Gilbraithe looked at his cousin a second before answering.

"If she were worth a hundred thousand I would marry her to-morrow. She is a girl who, ten years from now, will do honor even to a Galbraithe."

Alice was silent, and outside the open door, in the hall, Carmie had come all unheard in her slippered feet, but not unhearing, and stood silent also. She was vain, so felt a strange delight in this man's words, cruel and heartless as they were but she was proud and sensitive, and her eyes flashed, and something of the superb power Judson Galbraithe prophesied for ten years hence thrilled her; then, nothing but a girl, she shivered to think how easily she could have been won by this careless, handsome fellow if she had been wealthy—won, but not loved; and she crept silently away, wondering if she could be anything to be proud of—anything, but a poor, paid governess.

* * * * * * *

Thirty today! Once I should have considered myself old at this age, with the the best of my life passed, and little before me to enjoy; but now I am very happy, thankful, and content."

Carminie Brownell was looking across the blue sea water, her hands resting upon the railing of the balcony, her calm, sweet face, grave and thoughtful.

The climbing ivy and the rose threw fluttering leaf shadows and sunshine upon her tall, lithe, form; and people on the beach turned to look on the unconscious figure a second time.

"Who is she, Leicester?"

"Miss Brownell."

"Is that all there is to say of her?"

"No; I might talk a day or two of her, and you would be as little acquainted."

"You are unusually reticent. She must have incurred your lordship's displeasure, and you punish by ignoring her."

"We are good friends, but I knew that your questions were prompted by idle curiosity, and thought I would wait until you met her. She has won a fair fame and considerable wealth, I believe, by untiring patience and labor. She has triumphed over every obstacle, met trouble and disappointment that would have crushed a woman less brave, and now from it all she brings, instead of a cynical, selfish nature, one so thoroughly pure that men are made better for her living."

"She is wealthy, famous, but still unmarried!"

"Yes; even an old maid, if you like But no one ever thinks of that."

Philip Leicester frowned, and there was a ring of displeasure in his sweet, strong voice. It angered him to hear this cool questioning even from a friend.

Dr. Galbraithe, at his side, handsome, fascinating, worldly-wise, turned again to look at the white-robed figure.

They sauntered back an hour later just as Miss Brownell tightened the reins over her high-stepping blacks.

"Those are magnificent animals, by Jove!" exclaimed Galbraithe.

"Yes; she handles them perfectly too."

And Philip's dark eyes flashed and a wonderful light swept over his face, with the smile and bow he gave Carmie Brownell; while she gave a glance at both, but a smile to only one, as she dashed by them.

And the second time that day the fastidious Judson Galbraithe turned to look at a woman.

He had quite forgotten her, however, until he saw her that evening, in a little crowd in the large drawing-room.

Philip Leicester was one of the crowd and Galbraithe made his way toward them to be introduced.

She rose, smiling, gracious, thoroughly a lady, with no pretence to girlishness. There were valley lillies in the loose, low-coiled hair.

Her eyes were clear, brave, tender; her face one that changed with every thought, but was ever pure and true.

The summer passed, as all summers have a way of doing, and one night, when the season was almost ended. Carmie Brownell stood upon the terrace in the moonlight, listing to the roar and moan of the waters.

Judson Galbraithe found her there, looking like some still, restful picture; but she turned with her old smile, as he asked:

"Did you come to escape the crowd?"

"No; for had the crowd been here I should have stayed, I love the sea so much. I never dance, you know, and shall not be missed."

"I missed you, and searched until I found you—dreaming."

"Perhaps I am given to dreaming, but to-night I was thinking of my past life."

"Your past like your present, is good to remember."

He spoke with a shade of bitterness, for what did hers make his own careless, worldly one appear?"

"I was only thinking of the starting point. Shall we return?,'

"Not unless you wish it, for I have wanted to see you alone, but have not been able to do so. You must know what it is I have to tell for no man can be with you without learning to love and respect you. My life is not worthy to offer but you can make me what you will. Oh, Carmie, I love you. I love you! Will you say that you love me and will be my wife?"

His face was pale with the great passion that thrilled his soul, his eyes were burning and bright as they searched her face for one tender look, and his hands closed upon hers with a fierce o'ermastering grasp; but she was looking away from his face, beyond the line of harbor lights and the very sea itself, as she answered slowly: "Is it myself or my hundred thousand you would marry?"

All the scorn and subdued feelings of those twelve years rang out in the clear, proud voice.

"Yourself! What do I care for your wealth? Come to me penniless; but for your love, I will work for both; only tell me I can, dearest."

"Wait until I repeat your words of twelve years ago. Let me show you how well I remember. You said of Carmie Brownell, a poor and friendless girl. 'Were she worth a hundred thousand I would marry her to-morrow.' I am worth it now, and you come saying that you will marry me. Had you asked then, the girl Carmie would have believed with a faith the woman has not. I am glad you didn't say this then, even if you cared for me, you did me a greater service, for after hearing your opinion of me I crept away, and, after the first outbreak, I determined to make my life worth living, even if I might not be a Galbraithe; and the words that wounded so cruelly at first proved the incentive and watchword to something better than I dared dream. Years ago I should have considered your offer to me to-night the best of all, and would have thought myself avenged; but now I am only sorry that any one should suffer through me."

The sweet, earnest voice was silent, the waves moaned and sobbed on the sand below like some doomed, hopeless soul, and the music floated out to them wild and sweet—dying in a crash and wail of anguish.

"Is there no hope, if you have forgotten my foolish, mercenary words? Oh, Carminie, let me live for you, and prove my love by that."

She turned with a face as white as the the moonlight, and a look of pain in her gray eyes, then, very softly, with a world of saddened tenderness in her voice, "I am engaged to Philip Leicester; we have cared for each other a long time."

And then Leicester's tall form came upon the terrace. He took Carminie's hand upon his arm, and drew her soft shawl around her with a proud air of possession; while Carminie, ever thoughtful of this strong man's passion and the sorrow that had settled like darkness upon him, led Philip down the steps and away under the great calm stars and the moonlight to walk in the glory of perfect love together.

A young man who was asked by an elderly friend the other day why he carried a cane was able to give an answer. Said he: "I carry a cane because, getting in the habit of it, I never lose an umbrella."

A city young man who, while summering a week in the country, fell in love with a pretty dairy maid, proposed and was rejected, told his friends when he returned home that he only got one "milk shake" while he was away.

"Java good time?" asked a druggist of one of the grocers yesterday on his return from the picnic. "Yes," responded the grocer, "it beet olive ever seen in the weigh of a picnic before. Usually I don't carrot all for such things, but this was very spicy, and we were raisin Cain all day, Yes it gets butter and butter every year."

THE TELAUTAGRAPH.

Speaking about telephones, how would the telautagraph strike the business men of this town. Professor Elisha Gray, of Highland park, Chicago has just completed an invention scarcely less wonderful and valuable than the telephone. He says:

On next Saturday, I shall give an exhibition of my new telautagraph to some gentlemen from the east. I have already tested it to my own satisfaction over and over again. By my own invention you can sit down at your office in Chicago, take a pencil, write a message to me, and as your pencil moves a pencil here moves simultaneously and forms the same letters and works the same way. What you write in Chicago is instantly reproduced here in facsimile. You may write in any language; write in short hand, if you like; use a code or cipher—no matter, a facsimile is produced here. If you wish to draw a picture it is the same—the picture is reproduced here. The artist of your paper can by this device telegraph his picture of a railroad wreck or other occurences just as a reporter telegraphs his description in words.

"The two pencils move synchronously and there is no reason why a circuit of 500 miles cannot be worked as easily as one of 10 miles. The telautagraph will supplant the telephone for many purposes, for it will have marked advantages over it. It will be noiseless, less affected by induction, and no misunderstandings can result. When one person wishes to communicate with another by the telautagraph, he pushes a button which rings an annunciator in the exchange or office of the person with whom he wishes to communicate Then the first party takes his pencil from the holder—and this may be pen or pencil—and writes his message upon a roll of paper, As he writes so writes the pen or pencil at the other end of the wire."

"In writing," continued the professor "Your pen or pencil is attached to two small wires, and those wires regulate the currants which control the pencil at the other end of the wire. But these wires give you no trouble. You hardly know they are there, and can write with as much facility as if they were absent, Nor is there any doubt that it can be used commercially. It will not cost more than $15 or $20, and it works much more perfectly than the telephone."

THE MOON'S CARONA FROM MT. WASHINGTON.

Observer Purcell, of the United States signal service on Mt. Washington, when he made a visit to the lower world a few days ago, gave a wonderful description of the eclipse, as seen from the summit of the mountain. There was hardly one chance in a thousand that the phenomenon would be visible, but an unusual number remained at the Summit House, and were not disappointed. They stood above the clouds and the people below were the sufferers.

The most beautiful lunar carona Mr. Purcell ever saw was exhibited. It was absolutely perfect and lasted fifteen minutes It was produced by the difiraction of the rays of light in their passage through the small intervals between the particles of condensed vapor in the misty cloud. There were twelve gorgeous rings around the moon and the colors were perfect, for the particles in the cloud were not numerous to prevent the light from passing through. The one nearest the moon was blue, the second nearly white, and the third red. These formed the first series. In the next series the colors of the rings were purple, blue, green, pale yellow and red. In the third series the rings were pale blue and pale red.

The bright moon illumined the surrounding mountain peaks, and the view, with the fleecy, rolling clouds below, will never be forgotten by the forty visitors who had the good fortune to be there that night.

Willing to be Coaxed.

"Ah! here is something interesting," said a young man to his best girl as they rode up Lake street the other afternoon, and he read: "A series of experiments upon dogs proved that a tablespoonful of ice cream would suspend digestive processes for two hours. Isn't that a startling statement?" he asked, with a smile lighting up his countenance. "Very," she replied coyly; "but just listen to this," and she read: "Do not overwork your stomach. It should have a rest as well as the balance of the human system, and the digestive functions should be entirely suspended for at least six hours a day!' And George, dear, what more delightful way to suspend the digestive functions than by eating ice cream; I would try the experiment now—if—if I were coaxed." He rang the bell, they got off and he coaxed her.—*Elmira Gazette.*

In all this discussion about the tariff it seems strange that the sugar men have not as yet demanded any tariff on sand.

MEHITABLE AND ME.

By Hepsy Hathaway.

I was never under the impression that there was anything "busy" about me, but every Tom, Dick and Harry sat down so unmercifully upon that "unappropriated blessing," the "Old Maid?"

I says to Mehitable, says I," I suppose that 'old maid' is an old maid because she wanted to be one."

Says Mehitable, "not a bit of it!" She never had a chance to be anything else." Now that kind of settled me, because you see, Mehitable, she knows.

However, this is leap year, and they all, I mean old maids and young, can improve the opportunity; however, that is saying nothing about improving their conditions.

Mehitable and me have been rushed all Summer. You see we have been having quite a whirl of amusements, and we are becoming, I fear, quite demoralized.

Do you like music? We had plenty of it—trying to get an organ for a church—not very easy job, is it?

The Presbyterians tried a new kind of organ, but did not like it, as the volume of sound was not sufficient for the size of the church.

The Reformed congregation tried it, but would't have it because the Presbyterians wouldn't have it. Others would not have it on general principals. Result, the organ was boxed up and sent off, and everybody is trying to think there is an improvement, in fact, a decided improvement, in the old organs.

How suddenly people become reconciled to the inevitable! One thing is sure, the people who talked the least beforehand have the less to take back afterwards!

Well, the choirs can fight it out on the old line now for awhile—it will occupy their minds. But I must tell you where Mehitable and me went one night.

To hear Sam Jones! I will just say here, that any persons who have not heard him have a treat in store for themselves.

He is not afraid to tell people just what he thinks, and that is the kind of a person I like. I must just right here tell you something. Sam Jones said that we all thought so beautiful. "The mountains are God's thoughts piled up: the valley's are God's thoughts spread out; the ocean is God's thoughts imbedded; the river is God's thought's in motion; the dewdrop is God's thoughts impearled; the rose is God's thoughts in bloom."

Now wasn't that grand?

HOW BEN BROUGHT A RAILROAD TO TERMS.

There was a boy in Lowell, the son of a poor man, who was run over by a railroad train. Both legs had to be amputated close up to the hips. The company told his father they would give him $1,000 or the boy a practical education. The father accepted the latter alternative, and the railroad made a telegraph operator of the crippled boy. When he became of age he found he was not getting as good pay as other operators. He wrote to Gen. Butler and asked if anything could be done, says the Chicago *Tribune*. Gen. Butler sent for the boy. The whole story was gone over.

"I'll take your case," said the noted lawyer. Then he sent for the solicitor of the railroad company. When the solicitor arrived at the General's office the legless boy was in a chair on the top of a long table. General Butler explained that he proposed to bring suit for the boy to get damages.

"But," said the solicitor, "we agreed with his father to give him a practical education. We made a telegrapher out of him, and there is no law for getting any further damages."

"You can't tell me anything about the law," was General Butler's reply; "but how much damages do you think that boy would get if he sat on a table like that before a jury?"

The railroad lawyer caught the point at once. "I do not know," he said, "how much do you think he would get?"

"Abont $10,000," replied General Butler.

"I'll compromise with you," hurriedly returned the lawyer, and by his shrewd stage effect General Butler got over $7,000 for the boy without even going into trial. The lawyer knew Butler could make it cost the company that much, as well as a good deal of trouble, and he was glad enough to compromise.

TOTAL ABSTINENCE.

Total abstinence never destroyed a home, blighted a wife or cursed a child.

Total abstinence never robbed a man of character, manliness or integrity.

Total abstinence never filled a jail or almshouse!

Total abstinence never led a pure life into vice, nor blackened a pure life with shame.

Total abstinence never filled the land with wailing nor its households with want.

Drinking habits destroy, blight and curse.

Drinking habits rob and impoverish.

Drinking habits lead into vice and shame.

Which is better—total abstinence or moderate drinking?

SHE MEANT NOTHING PERSONAL.

"Don't want it sir!"

"It's only ten cents a bottle madam, and it will pay—"

"No use for anything of the kind, I say—wouldn't have it!"

"It is warranted to mend anything in the line of broken dishes or—"

"I tell you I don't want it and you needn't stand there talking any longer."

"All right madam, all right; don't want to intrude. Fine morning, madam. The lady next door made a little remark about you, madam, but I don't suppose you would care anything about hearing it repeated. Good-by, madam."

"Hold on a minute, won't you. She said something about me you say?"

"Yes, ma'am, let fall a little remark concerning you—but I don't think you would care to hear it. I've got to hurry along."

"Just a moment. I believe I'll take a bottle of that stuff."

"The lady I was speaking of took three bottles for a quarter, madam, but I—"

"Give me four bottles please; half the dishes in the house are broken. The idea of her saying anything about me, the mean thing!"

"Yes certainly. Accidents will happen to valuable china. Apply it with a brush as directed. Also, I have large bottles of furniture polish, 50 cents a bottle. Two bottles? All right, There you are. There's your change madam. Hope everything will be satisfactory, Good morning madam."

"But wait just another moment—you did not tell me what the woman said about me. I'll teach her to talk about me behind my back."

"O, yes, I most forgot it. You see it was this way I asked her if the lady in the next house, meaning you, you see, was at home."

"Yes, yes, I understand. What did she say then?"

"She spoke up quick like, and said she did not know. That was all, madam. I told you it was not much. Be sure and apply the cement with the brush, as directed. Good-by!"—*New York Tribune.*

When it came to telling a stiff tale the old Puritans of Massachusetts could hold their own, as this extract from a letter sent by one of them to friends in England in 1653 shows: The frogs, the writer says, "sit up on their haunches a foot high; and some are as big as a child that is a year old."

Tommy's mother had a hard time teaching him to remember and always to say, "If you please," at the table. His memory is lamentably bad. The other day this dialogue took place at the table: Tommy: "Mamma, hand me the butter." Mamma: "If what, Tommy?" Tommy: "If you kin reach it."

The Democratic party would have the people believe that it is conducting a campaign against corporations and trusts, yet seven of the ten of its campaign comittee are officers of railroad corporations and big railroad-stock speculators. Such bare-faced hypocrisy even the Democratic party has heretofore not been guilty of.

Gen. Fisk, in his letter of acceptance: "The National Democratic party, in its platform, utters no word of condemnation of the greatest foe to the public—the liquor traffic. "Oh! they all make money there; I have a cousin who just came home, and he is living on the interest of what he saved over there." "What business was he in?" "I don't exactly know, sor, but I think he was a conductor on a horse car."

A true story of the perplexity of a graduate of the Boston English High School, over a word that he found occuring with vexatious frequency in the foot-notes of a work that he read recently. "Do you know," he asked, "who Ibid, the author, was? I've been reading a book that has lots of extracts from his writings in it, and I can't find his name in any cyclopedia." The young man was told that he was a relative of the distinguished author, Anon, who has written some of the most beautiful things in the English language.

It was in a Boston private school of fashionable repute and the young ladies who had been studying the history and the Constitution of the United States, were under examination. How is law made? said the instructor. "Oh," said a tailor-made damsel cheerfully, "the Senate has to ratify it and then the President has to veto it."

Fond Mamma (showing the baby to visitor): "Sh-h—he's asleep. The little darling. Isn't he the sweetest you ever saw?" Visitor (in awe-struck whisper): "Decidedly. Can he talk?" Fond mamma: Talk? I should say he could talk! Why, he can say goo, and ga, and yow. Picked them up himself, too.

It is told of a popular solicitor that he recently called upon another brother of the profession and asked his opinion on a certain point of law. The lawyer to whom the question was addressed drew himself up and said, "I generally get paid for what I know." The questioner drew half a crown from his pocket, handed it to the other, and coolly remarked, "Tell me all you know, and give me the change."

A young man gave a graphic description of a narrow escape that he had recently from an enraged bull: "I seized him by the tail!" he exclaimed; "an' there I was. I was afraid to hold on, and I da'sn't let go." "Between the horns of a dilemma, as it were?" ventured a young lady, very much interested. "No, ma'am," replied the young man. "I wasn't between the horns at all; an' besides, he wasn't a dilemma—he was a Jersey."

FRESH FLOWERS.

Almost the first thought that follows admiration for a freshly-picked bouquet is how it can be preserved the greatest length of time. Many experiments have been undertaken to prevent flowers from fading—such as placing salt in the water or nipping them off and applying sealing wax. We have tried all methods, and have come to the conclusion that changing the water in which the stems are plunged frequently, and sprinkling the flowers hourly, will keep them fresh and fair longer than will other treatment.

The water used should be tepid. The cooler the temperature of the apartment the better. Never leave flowers under a gas jet or they will immediately blight. The last thing at night change the water on the stems and sprinkle the flowers thoroughly. Tie over the vase or basket tissue paper which has been soaked in water. Over this tuck a newspaper. In the morning the flowers will be found as fair as on the night previous.

Roses fade sooner than almost any flowers. Heliotrope will wither and blacken with the tenderest care. It should be nipped from a bouquet as soon as it looses freshness. Lillies, tulips, narcissus, upborbias, hyacinths, and all flowers with succulent stems, can be preserved several days.

In his letter of acceptance of the Presidential nomination of the Prohibition Party, Gen. Fisk says: "It is not enough that we reform the individual; we must reform the State." True. But should not the reformation of the State follow that of the individual? Is not the reformation of the individual last a reversal of the natural order? When the individual is reformed will not the reformation of the State follow as a matter of course?

Hon. Jos. P. Bass

is the best known man in eastern Maine except possibly Hon. James G. Blaine. The reason for this lies in the fact that he is a pushing, energetic business man, and having wealth, is interested in many enterprises, living employment to many people. About four years ago he took a large tract of land in Bangor, on which he built a fine race track, where, for the last two years, the New England Agriculture Society have held their annual exhibitions. At this time Mr. Bass overtaxed his powers, weakened his system by exposure, and the result was he found himself a victim of Dyspepsia and Kidney disease.

His food distressed him, he had the lame back, the tired feeling, that weary, continuous pain, so often described and so familiar to all suffering from these troubles. He was in despair of getting well when, one day, a "sudden whim," as Mr. Bass terms it, changed the whole current of his life. He is a large owner in the Bangor *Daily Commercial*, the office of which is directly across the street from the Brown's Sarsaparilla establishment, and seeing several bottles displayed in the window, yielded to the 'whim," went over, ought one and used the contents. It astonished him, inasmuch as it aided him more than all the physicians and a southern trip. He took the second bottle, which was equally as effective as the first, and when the Hon. Geo. B. Loring, of Massachusetts, Hon. Geo. Noyes, of the Massachusetts *Ploughman*, and other managers of the N. E. Fair came to Bangor in August, 1886 they found Mr. Bass in perfect health, due solely to the use of

OH! MY HEAD.

The pain from Neuralgia and its companion disease Rheumatism is excruciating. Thousands who could be quickly cured are needlessly suffering. Ath-lo-pho-ros will do for others what it did for the following parties:

Williamsport, Ind., Oct. 3, 1887.

Having been afflicted with neuralgia for the past four years, and trying almost everything, but in vain, I finally heard of Athlophoros. After taking one bottle I found it to be helping me, and after taking four bottles of Athlophoros and one of Pills, I found that I was entirely well. I think the medicine is positively a sure cure.

CHAUNCEY B. REDDICK.

A Dude Bridegroom.

"How do I look, Dicky?"

Dicky is the "best man," and a brother dude. He replies with great fervor:

"Oh, splendid, deah boy, splendid."

"Weally, Dicky?"

"'Pon honah, old fellow."

"Me necktie all right, Dicky?"

"Yes, yes—everything is all right."

"Weally, Dicky?"

"'Pon honah, deah boy."

"Me coat sets well in the back, Dicky?"

"Couldn't be bettah."

"Weally, Dicky?"

"Yes, weally."

"O, Dicky?"

"Well, deah boy?"

"Isn't there a winkle, a great horrid winkle, in my right glove?"

"No—'Pon honah.''

"O, I'm so glad, for—O, Dicky!

"Well, me boy?"

"Would you mind taking the brush and smoothing me hair down a little on the left side?

"With pleasure, old fel."

"Ah, thanks."

"How do you feel, my boy?"

"A trifle nervous, Dicky."

"Ah, brace up, brace up, me boy."

"What time is it, Dicky?"

"A quarter to eight."

"Ah! almost time for the ceremony. Hanged if I don't wish it was all over with. You sure I look all right, Dicky?"

"Splendid, old fel."

"Ah, thanks, awfully, deah boy, I'm a trifle pale, eh, Dicky?"

"A mere twifle."

"Ah, thanks. Would you mind fanning me a little, Dicky?"

"With pleasure, me boy."

"O, Dicky, what if I should faint?

"There, there me boy; don't get nervous."

"Hanged if I can help it. Ah, it's time to meet Helen, and I look all right, I—my necktie—I—my trousers—for I—I my hair, Dicky, my hair, I—I—O, Dicky, I'm so nervous!"—*Detroit Free Press.*

AN AFFECTING INCIDENT.

The following affecting little story is related as one of the romances of real life occuring during the Peninsular war between France and Spain. A young conscript was taken from his home in the south of France to recruit the army of the Emperor. A brilliant action placed epaulets upon the shoulders of the young soldier and in the course of three years only Napoleon nominated him Colonel in the line, and attached him as aide-de-camp to his own person. At Austerlitz, a cannon-ball, nearly spent, struck the rising officer on the back of the head. He fell senseless from his horse, and so continued, despite all the surgical skill that could be brought to bear upon his case. A fellow conscript, who came from the same village, but who had only the rank of sergeant, was profoundly touched by his comrade's situation, and personally obtained leave of the Emperor to convey him to his native village, insensible to all surrounding objects as he was, with the hope that old familiar scenes would rouse him; for the surgeons declared that he was not suffering from any severe physical injury; but that the shock had only produced the deadening effect upon his intellect.

After a long and tedious travel the colonel reached the cottage in which he was born. They placed him upon the little bed upon which he had slept from childhood to the time when the conscription called him to the field of battle. They placed all the old familiar objects in the room as they were before; and opening the casement they let the odor of flowers he had with his own hands planted stream in upon him, while the vine-leaves that shaded the little window rustled faintly in the breeze. The book he loved to read was by him. The run he proudly called his own—his peasant clothing—all were placed to meet his gaze; and still he lay as dead a thing as ever yet breathed the breath of life. And then, while the mother wept, and the father prayed in the adjoining chamber, a little bird alighted on the window sill, and nestling among the clustering vine leaves, he sang his well rememberd wood-notes wild, and the soldier opening his eyes, with a deep sigh rose from his couch. He looked around him upon the well-remembered and fondly-cherished scene—all his life amid the storm of battle seemed but as a dream; and with a sob of joy, he burst into tears.

He clasped the old book to his bosom, he kissed the gun, and the flowers in the old vase; he thought he had placed them there. He called aloud. "Mother! father! Louise! Jacques!" He rushed from the room, and upon a table in that adjoining, he saw a sword, a military hat and feathers, and a Cross of the Legion of Honor. The mother sprang to him and clasp him in her arms. He pointed to the insignia.

"It was not a dream!" and fell dead upon the floor.

THE THIMBLE.

The name of this little instrument is said to have been derived from "thumb-bell," being at first "thumble," afterward "thimble." It is a Dutch invention, and was brought to England about the year 1605 by John Lofting. Formerly iron and brass were used, but lately steel, silver and gold have taken their places. In the ordinary manufacture, thin plates of metal are introduced into a die and punched into shape.

In Paris gold thimbles are manufactured to a large extent. Thin sheets of sheet iron are cut into dies of about two inches diameter. These, being heated red-hot, are struck with a punch into a number of holes, gradually increasing in depth, to give them proper shape. The thimble is then trimmed, polished and indented around its outer surface with a number of little holes by means of a small wheel. It is then converted into steel by the cementation process, tempered, scoured, and brought to a blue color. A thin sheet of gold is then introduced into the interior, and fastened to the steel by means of a polished steel mandril. Gold leaf is then applied to the outside, and attached to it by pressure, the edges being fastened to a small groove made to receive them. The thimble is then ready for use, and finds a ready market.

Bishop Wurtzburg, a noted clergyman, used to delight in telling a joke at his own expense. He was walking in a meadow when he met a little shepherd lad. "What are you doing, my son?" asked the Bishop. "Tending swine, your reverence." "How much pay do you get?" "One florin a week." "I am also a shepherd," continued the Bishop; "but I have much better salary." "That may be, your reverence, but then, I suppose you have more pigs under your care," replied the boy.

Now that Voorhees has been making a big speech and abusing the Republican party violently, it is in order for Ingalls to lop off a few more branches from the "Tall Sycamore." He is an excellent pruner, particularly of such characters as Voorhees.

NATIONAL SNOBBERY.

There has been for several years past a great deal of snobbery among a few weak-minded people living in New York City and Boston. It consists in an attempt to imitate whatever is English even in dress and speech. The practice was severely condemned by the people generally and those who imitated the English most closely were generally classed among the dudes and dudines. It was further evinced in an insane desire among the fashionable dudines to marry an English title. No matter how vicious the owner of the title might be there were some silly women willing to give a million dollars for the privilege of sharing it. Sensible people and the press generally made sport of this weakness which it was believed prevailed among only a few whose wealth kept them out of the asylum for the feeble minded.

When Mr. Cleveland was elected to be President it was not supposed that he had much intellect, but his weakness was not thought to be of the dude sort. His neck seemed too thick for that. But when a thick neck is accompanied by a small hat band, as in his case, dudeism must follow. Now, Mr. Cleveland has developed a desire not only to imitate the English, but to force English customs on the entire Nation.

His first effort was in the appointment of Mr. Bayard, an English sympathiser, to be Secretary of the State. The entire career of that gentleman has been to give up everything to England's demands. Mr. Phelps, who was appointed minister to England, has demonstrated himself to be an individual of the same stamp. But this much seemed of little importance, because while these gentlemen made pitiable exhibitions of themselves they injured no one else.

But now Mr. Cleveland has succeeded in committing his entire party to the policy of imitating English in free trade principles and that, too, when the two countries are so differently situated. We do not believe free trade is conducive to the welfare of any Nation, but the present circumstances enable England to stand it much better than America can. This condition of affairs will bring about another imitation. We must then imitate England in paying very low wages to laborers. Not only must the father of the family and his sons labor at daily employments, but the entire family will be compelled to engage in hard labor to help earn their bread and gruel. It is English, you know, and that is what Cleveland and his followers are striving after.

Two noted infidels in the state of Indiana have recently forsaken their lack of faith and have embraced Christianity. Both of them were editors, but have left their editorial work for other employments. Mr. Joseph Daily, editor of the Jeffersonville *News*, was the first, and he was quickly followed by Captain Brown, who is prominently connected with the *Press* of Indiana. The latter gentleman has written a lecture entitled "From Ingersoll Park to a Heavenly Eden." But what we are surprised at is that these gentlemen should renounce such an ancient and honorable profession as journalism, just because they gave up infidelity. There is no better medium than the press through which to circulate Christian principles.

—On Saturday evening a stately Harrison and Morton pole was raised in Birmingham and now float the stars and the stripes to the breeze. John G. Love, Esq., added interest to the occasion with an elegant address of which a correspondent says:

"For one hour he entertained the large audience assembled with one of his best oratorical efforts. We have heard him before, but we can say that on this occasion he outdid any of his previous efforts and was frequently applauded."

—The picnic of the Roman Catholic church will be held in Valentines woods on Saturday next. These picnics are always popular and enjoyable and will attract many visitors.

—A grand democratic meeting is to be held in this place on Tuesday evening of Court week. The address will be delivered by Hon. Wm. C. P. Breckenridge, of Kentucky.

A COUNTY CONVENTION.

Mr. Cleveland's Party Prepares for the Campaign.

The Democratic convention on Tuesday afternoon was not as large as usual. In personnel it was about equal to former conventions. We do not believe there was much enthusiasm on the part of the delegates, for although there was some applause it was not spontaneous, but rather forced.

Mr. Henry Beck of Madisonburg was made president and filled the position creditably. The convention was first called to order by the retiring county Chairman, Aaron Williams, Esq. Mr. William Wolf, of Centre Hall, and Mr. Charles McGarvey flanked Mr. Beck as vice presidents. Then R. F. Hunter, of Benner township, was nominated for reading clerk, and Gordon Wyche and John Gorthoff for secretaries.

Thus constituted, the convention proceeded to business, conducted very tediously, however, as the convention was compelled to wait until the committee on resolutions, consisting of Hon. John H. Orvis, F. P. Musser, T. B. Ulrich, J. S. Ewing and John A. Woodward, were ready to report a party platform for the delegates to stand on. These were read by Mr. Orvis.

Resolution No. 1 endorsed Cleveland.

No. 2 approved Mr. Cleveland's famous free trade composition which he sent to Congress.

No. 3 declared that the nominees of the St. Louis Convention were gentlemen after the party's own heart.

No. 4 proclaimed that the platform of the Democratic State Convention was O. K.

No. 5 repeated an exploded chestnut about the present administration having given more money in pensions than previous administrations.

No. 6 was to the effect that the large surplus in the Treasury is a great wrong.

No. 7 declared against the practice of granting land to corporations.

The 8th section denounces the importation of foreign laborers, and giving them employment. To which every Republican as well as Democrat will assent.

The 9th section read like old times when Bellefonte held meetings and built the Beech Creek railroad, namely to carry out the provisions of section 17 of the State Constitution.

We did not catch the exact drift of section 10, but all were adopted into a platform which must either hold the party or break to pieces.

Chairman Beck called for nominations of candidates for Congress and J. L. Spangler was named and nominated by acclamation. He appeared and expressed his thanks, promising that whether he should be nominated or not by the district conference he would not sulk in his tent, but will gladly follow that great leader, Cleveland. The gentlemen who have been delegated by the convention to meet other delegates of the 28th Congressional District for the purpose of urging the nomination of Mr. Spangler by the district conference are J. H. Reifsnyder, of Millheim, A. J. Graham of Philipsburg, and Jno. H. Orvis of Bellefonte. A resolution was passed instructing the conferees to use all honorable means to secure his nomination. They are also empowered to appoint substitutes if they cannot be present at the conference.

A resolution advocating a change in the manner of making the district nominations was offered by Mr. Orvis. He urged as a reason that Forest county has only 500 Democratic votes while Centre county has 5,000, and as each county has three votes in the conference, the Democrats of Forest county have ten times as much power in the conference as the Democrats of this county.

Nominations for Assembly were made as follows: J. H. Holt, of Snow Shoe; J. G. McCormick, of Ferguson township; Aaron Williams, of Bellefonte; Leonard Rhone of Centre Hall, and Samuel J. Herring. Rhone and Herring were withdrawn and the three gentlemen first named were balloted for, the nominees of the convention being Holt and McCormick.

There seemed to be no competition for the nomination for Coroner and Dr. Jas. W. Neff, of Boggs township, was nominated by acclamation.

When nominations for Jury Commissioner were in order it seemed as if every delegate had his special candidate. Among the gentlemen named were Wm. H. Smith, of Unionville; H. C. Hinton, of Snow Shoe; Geo. W. MaGaffey, of Philipsburg; George Robb, of Marion township; Wm. Lyon Sr., of Howard; George Bower, of Haines township; L. C. Roan, of Spring township; Daniel Frank, David Bartges, Robert M. Loder, L. C. Rarick, and Daniel Swabb. It required seven ballots to prove which of these gentlemen was the choice of the convention and when at length the contest narrowed down to Bower and Swabb, the former received 49 votes and the latter 36, making Mr. Bower the candidate.

The chairmanship of the county committee was respectfully tendered to Jno. M. Keichline, Esq. He refused point blank. Then it was offered to J. C. Meyer, Esq., and that gentleman thanked the convention courteously, but firmly refused the honor. Then it was given to W. C. Heinle Esq., who was elected before he could decline.

The four delegates to the State Convention are A. J. Griest, of Unionville; W. F. Smith of Penn township; D. Gordon Wyche, of Rush township, and Aaron Williams of Bellefonte.

Joseph H. Riley, was elected by acclamation the Centre county member of the State Committee.

Peter Herdic is assisting Billy Confer in his barber shop. Herdic is not only enterprising like his namesake, but he is a handy man to have around, in time of a rush.

Whilst engaged in repairing Hogan's saw mill, Mr. John McElwaine fell some ten feet down amongst the machinery injuring him severely. At last accounts his condition, although at one time considered serious, was improving and his many friends hope to see him around again within a few weeks.

James Hogan is visible on our streets again. James is one of the old stand-bys and manages to visit his old stamping ground about four times a year and is always warmly welcomed by his many friends. When James gambles in the lottery or otherwise, he always quits ahead.

Scott Miller, of Lewistown, Pa., the person who was injured by the cars at Howard on last Saturday, under the care of Drs. Hensyl and Beck, is improving and will be able to be removed to his home next week. Mrs. Miller arrived on Monday's train and is now at his bedside. The people of Howard have taken the best of care of the unfortunate person, Mr. Wm. Smith attending him through the day and furnishing watches during the night, whilst landlord Newson, where Mr. Miller is lying, furnishes him and his wife all the comforts and necessaries for the occasion.

Gatesburg Gatherings.

The festival is over and we had a lovely day and a successful time. Our expenses, which were $87.43, are paid and there is a balance in the Sunday School treasury of $65.

The Committee wishes to return thanks to the ladies for the help they rendered, and for their gifts of cakes, eggs and milk. Among the pleasures of the evening was a cake walk. Miss Bertie Hastings and Isaac Rider were lucky and received two cakes. Mrs. Devore, of Tyrone, received one and Mrs. Henry Powley was also the recipient of a cake.

Two games of base ball were played on the day of the festival—one in the morning between the Gatesburg nine and a picked nine, and one in the afternoon between the Liberty Stars, of Marengo, and the Gatesburg nines. The result of the first game was a score of 9 to 7 in favor of the Gatesburgs. The second game was all on one side, the Gatesburg nine making 41 runs to the Liberty Stars 7.

Mr. Fryberger, of Philipsburg was in town on last Saturdry, and his presence is alone enough to make every Democrat vote for him when he becomes a candidate for Assembly. There are now only three or four Democrats in our town and if Mr. Fryberger comes here once again there will be none.

A fierce hail storm raged here on Sunday. The hail ranged in dimensions from the size of a pea to that of a hickory nut.

Miss Sallie Rider is visiting friends here.

Mr. William Devore and wife are spending a few days with us. They expect to return to their home in Tyrone in a few days.

R. B. Wigton, of Philadelphia, who is a son of W. R. Wigton, of Philipsburg, was here on last Friday, looking after the ore bank they have here.

To correct a mistake in my last correspondence I will state that because of the late arrival of the necessary books the postoffice was not opened on Monday, the 6th, as stated. The books are now here and it will soon open to the public. SUMMER.

THE *Jewish Gazette and News*, of New York City, the only daily paper distinctively Hebrew in its character in New York State, supports Harrison and Morton. This is important in view of the fact that there are 150,000 Hebrew voters in that State who have heretofore been Democrats.

Reducing the Surplus.

The disposition of the Surplus in the U. S. Treasury engages the attention of our Statesmen, but a more vital question has our attention, and that is the reduction of the Surplus of Consumptives. Since the discovery and introduction of Dr. King's New Discovery for Consumption, there has been a marked decrease in the mortality from this dreaded disease, and it is possible to still further reduce the number of Consumptives. How? By keeping constantly at had a bottle of Dr. King's New Discovery and using according to directions, upon the appearance of the first symptoms, such as a Cough, a Cold, a Sore Throat, a Chest, or Side Pain. Taken thus early a cure is guaranteed.

"Dickens Had One Trick,"

remarked the professor, in a discussion of favorite authors, "which always struck me as an oddity. I mean his habit of pinning some distinctive word or phrase on a character, which must be uttered on all occasions. Now people in real life don't iterate like parrots. At least, I know of only one person who is liable to such criticism—young Bowden, my neighbor. The picture of health, isn't he? Ruddy cheeks, sparkling eyes, ringing voice. Well, his pet phrase, which I've heard him repeat to perhaps a score of people suffering from coughs and weak lungs, is, 'Take Pierce's Golden Medical Discovery.' No wonder, either, for it saved him from a consumptive's grave.

Accident at Howard.

A man named Scott Miller, while at Howard on Saturday afternoon, endeavored to jump on the local freight as it was rapidly passing that place. He fell and one of his feet were crushed in a frightful manner by the wheels of the cars. Drs. Hensyl and Beck of that place, came to his assistance and amputated the injured foot. The man is in quite a dangerous condition. Miller is a married man and his home is in Lewistown.

The Handsomest Lady in Bellefonte

Remarked to a friend the other day that she knew Kemp's Balsam for the Throat and Lungs was a superior remedy, as it stopped her cough instantly when others had no effect whatever. Home Evidence

No other preparation has won success at home equal to Hood's Sarsaparilla. In Lowell, Mass., where it is made, it is now, as it has been for years, the leading medicine for purifying the blood, and toning and strengthening the system. This "good name at home" is "a tower of strength abroad."

People of Lowell

It would require a volume to print all Lowell people have said in favor of Hood's Sarsaparilla. Mr. Albert Estes, living at 28 East Pine Street, Lowell, for 15 years employed as boss carpenter by J. W. Bennett, president of the Erie Telephone Company, had a large running sore come on his leg, which troubled him a year, when he began to take Hood's Sarsaparilla. The sore soon grew less in size, and in a short time disappeared.

Praise Hood's Sarsaparilla

Jos. Dunphy, 214 Central Street, Lowell, had swellings and lumps on his face and neck, which Hood's Sarsaparilla completely cured.

Mrs. C. W. Marriott, wife of the First Assistant Fire Engineer of Lowell, says that for 16 years she was troubled with stomach disorder and sick headache, which nothing relieved. The attacks came on every fortnight, when she was obliged to take her bed, and was unable to endure any noise. She took Hood's Sarsaparilla, and after a time the attacks ceased entirely.

Many more might be given had we room. On the recommendation of people of Lowell, who know us, we ask you to try

Helping the Right Side.

To help the right side is not only commendable in a general point of view, but is judicious and prudent when that help is enlisted in behalf of the right side of the body, just over the lower ribs in the region of the liver. The most efficient help is afforded by Hostetter's Stomach Bitters, an anti-bilious medicine of incomparable efficacy. Inaction of the liver is accompanied by consumption, sick-headache, furred tongue, nausea, occasional vertigo, an unpleasant breath, yellowness of the skin and ball of the eye. The author of these symptoms, liver complaint, routed by the Bitters is accompanied by them in its flight. Fever and ague, which always involves the liver, dyspepsia, rheumatism, debility and kidney troubles are all maladies to the early relief and final cure of which this standard medicine is adapted. Don't use it by fits and starts, but systematically, that its full effects may result in a perfect restoration of health.

GROWTH OF STATE COLEGE.

During the past five years I have been in the habit of making occasional visits to State Colege, and have noted with considerable interest the growth and development of the village, and the advance made by the educational institution located here.

When I first visited here I think eighteen buildings would constitute the full number composing the village. Now, from the piazza (where I am writing) of Prof. Osmonds, beautiful residence I can count sixty buildings in the village proper, without including the fourteen located on the College grounds. Then there was but one store in the place now there are eight. Then there was no church, now there are two, Presbyterian and Methodist, very pretty structures in architectural design and finish.

As there are no manufacturing interests here, and as the place is off the railroad and no central point of trade, it must be that something else than business has caused such rapid growth. A month's reflection will show what the real reason has been; it is the State College itself which has wrought the surprising change.

For many years this institution, though endowed by the Government, held an anomalous position. People did not know what it would finally turn out to be. It was sustained in a suspicious, hesitating manner by the State and received little encouragement from any source, and at one time was very near being diverted from its original purpose and reduced to the grade of an ordinary Academy; but the persistence of its friends, aided by the intelligent portion of the State Legislature, finally succeeded in bringing this College through beyond the reach of ignorant opposition, and of placing it where it belongs in the first rank of the institutions of learning in this country.

The large appropriations recently made by the State and sums realized by the sale of the two detached experimental farms are now being judiciously expended in the erection of buildings in the campus and on the College lands, such as have long been needed, and such as will greatly increase the facilities of instruction in different departments. The Armory, 80x120, will be a grand structure and exceedingly ornamental. The building for the departments of Physics and Chemistry has been arranged according to the latest plans adopted by other Colleges, with some special improvements, and is to be furnished with every required apparatus for the successful prosecution of these branches.

The Horticultural building is already completed and is a valuable addition to the beauty of the campus. The Agricultural experiment station building will be a large two story structure placed on a high point where it may be seen for miles around, and will be a very attractive feature in the general appearance of the College campus and buildings. The two new dwelling houses just being completed are also well located and of very unique designs. Besides these improvements the main College building is undergoing a thorough renovation, and change of its interior arrangement, the most important feature of which will be its new chapel, the entire first and second stories of the centre building being appropriated to this purpose.

All this work is being done under the able direction and superintendence of Mr. Olds, the architect.

President Atherton, and the eminent Faculty, in charge of the State College deserve great credit, for their efficient and successful efforts in bringing this institution up to its present high standard. It has been a work of immense labor, and has taxed to the furthest both their patience and capacity; and it has been fortunate, not only for the College itself, but for the good name of the State, and for the hundreds of students who may hereafter attend the College, that President Atherton has been found equal to the demands of his difficult potition; he has brought to the work a tact and influence sufficient to overcome all obstacles, to induce favorable legislation, to increase the patronage, and to demand a recognition of its worth from the citizens of Pennsylvania and from the public press.

In this laudable work the President has been ably seconded and aided by the most competent and efficient Faculty, by a highly and influential Board of Trustees, and by the personal good-will of some of the most eminent men in the State. The future success of the Pennsylvania State College is therefore assured, and its friends who were faithful in its dark days can now rejoice in view of its broadened purpose and growing influence. There is one matter deserving special mention: Through the passage by Congress of what is known as the Hatch bill, an appropiation of fifteen thousand dollars a year was made for an Agricultural Experiment Station of this State; and Pennsylvania supplemedts this by three thousand a year; and thus it will be seen that eighteen thousand dollars per annum will be expended for scientific work at this place, besides the expenditures and scientific work of the College proper.

The social and intellectual life of this community will receive considerable addition from the number of intelligent and scientific men, and their families, who will be brought to the place by this Agricultural Experiment Station: Of itself it will afford a vast amount of valuable practical knowledge to the farmers of the State.

The citizens of Centre county certainly have reasonable cause for pride that such an institution as State College is located and maintained within their borders.

Killed by a Fall of Coal.

Special to the Altoona Tribune.

OSCEOLA MILLS, Pa., August 13.—Joseph Ashcroft, an Englishman, about 25 years of age, was killed about 10.30 this morning by a fall of coal at Elizabeth No. 3 colliery. He, with his father, was making a cut under a column of coal that would weigh one ton or more, and had neglected putting in props, thinking it would hold without. He was under about two and one-half feet when the entire column gave way, covering him completely and killing him instantly. He was a married man with one little child. The accident is attributed entirely to the carelessness of deceased.

—Fillmore has a new band. The organization recently procured new instruments and has a membership of eighteen. They render music of very excellent quality considering that they are but beginners in the great work of brass bandism. On the evenings of the 24th and 25th instants the band will hold a festival and dance. The proceeds will be for the band and they invite all who care to refresh the inner man or woman and all who delight in the dance to assemble for those purposes. A very suitable platform has been erected for the latter amusement and it is hoped the occasion will be merry, pleasant and profitable.

Barn Destroyed by Fire.

Special to the Altoona Tribune.

LEWISTOWN, Pa., August 13.—The large barn owned by Robert G. Shaw, in this county, any leased by Edward Wagner, was entirely destroyed by fire yesterday morning at 4.15 o'clock. The building was struck by lightning. The entire contents of the barn, including this year's crop of wheat, hay, rye and oats, and valuable machinery, were destroyed. Loss $3,000, insurance, $1,000, on building.

—There was a jail delivery in Lock Haven on Saturday. Six burglars who who were among the many inmates of that institution succeeded in making their escape from its stone walls and iron bars. An immediate and partially successful pursuit was instituted. Two of the escaping criminals were overtaken at Mt. Eagle on Sunday afternoon at 2 o'clock, and were captured. One other was captured near Lock Haven. These three have again been placed under lock and key and will probably be guarded more carefully in the future. Three of the fleeing fugitives are still at liberty.

The Population of Bellefonte

Is about 5,000, and we should say at least one half are troubled with some affection of the Throat and Lungs, as those complaints are according to statistics, more numerous than others. We would advise all not to neglect the opportunity to call on their druggist and get a bottle of Kemp's Balsam for the Throat and Lungs. Price 50c and $1.00. Trial size free. Sold by all druggist.

Dr. Theel, the celebrated Specialist, has yet to find an equal in curing nervous, kidney, blood, skin and special diseases. His superior power of healing is due to his complete practical knowledge of allopathic, homœopathic and eclectic systems of medicine. All persons should consult him personally or by letter at his office, 538 North Fourth St., Philada., Pa.

ROBERT COOKE, JR., Sheriff.

Sheriff's Office, Bellefonte, Pa., July 31st., 1888.

COURT PROCLAMATION.—Whereas, the Hon. A. O. Furst, President Judge of the Court of Common Pleas of the 49th judicial district, consisting of the Counties of Centre and Huntingdon and the Hon. Chester Munson and the Hon. Daniel Rhoads, Associate Judges in Centre county, having issued their precept, bearing date the 28th day of July., A. D. 1888, to me directed, for holding a court of Over and Terminer and General Jail Delivery and Quarter Sessions of the peace in Bellefonte, for the County of Centre, and to commence on the fourth Monday of August, being the 27th day of August, 1888, and to continue two weeks, notice is hereby given to the Coroner, Justices of the Peace, Aldermen and Constables of said County of Centre, that they be then and there in their proper persons, at 10 o'clock in the forenoon of the fourth Monday, the 27th day of August, 1888, with their records, inquisitions, examinations, and their own remembrances, to do those things which to their office appertains to be done, and those who are bound in recognizances to prosecute against the prisoners that are or shall be in the jail of Centre county, be then and there to prosecute against them as shall be just.

Given under my hand, at Bellefonte, the 28th day of July., in the year of our Lord, 1888, and in the one hundred and thirteenth year of the independence of the United States.

RAMBLING.

What was Observed in an Hour's Walk Through Town.

Repairs are in progress to Mrs. Ammerman's house on Bishop street.

Ed. Brown, Jr., has built a forty foot rear addition to Camp's furniture store room. It is now ninety feet in depth.

F. B. Stover and Ed Brown, Jr., were on East Bishop street on Friday afternoon looking after the welfare of that locality. There is quite a distance along that street where the dirty water lies without running off. The remedy will be found in compelling each resident to make a gutter in front of his own premises.

There is a very substantial crossing in front of the school house. Mr. Stover believes that it will outlast the lifetime of both himself and Mr. Brown, while Mr. B. ventures the prediction that it will need repairs inside of three years. If repairs are needed before three years shall pass away Messrs. Stover, Brown, T. Shaughensey and "ye editor" will be treated to ice cream.

The school board has shown another evidence of its progressiveness in the erection of a fine picket fence all the way round the school property on Bishop street.

Mr. Utz has been at work leveling the rugged lot on which he will build his new house, almost opposite the school property.

—It is estimated that the income from mineral water, bottled and shipped from Saratoga, amounts to about $500,000 a year. There are twelve springs from which water is shipped. Some people who acquire a taste for particular waters become inveterate drinkers. Ex-Senator Barnum is one. Judge Davis was Rev Dr. Theodore Cuyler is reported to have said: "Amid all the assaults of skepticism, there are three blessings in regard to which my faith has never been shaken—they are God's word, good woman and Saratoga water." Like alcoholic drinks, mineral water should be taken in moderation and systematically.

—It has been a mystery to many young persons why the dark, rich-colored wood so much used for furniture should be called "rose-wood." Its deep-tinted, ruddy-streaked surface certainly does not resemble the rose, so we must seek some other reason for the name. Here it. When the tree is first cut, the fresh wood exhales a very strong, rose-like fragrance which soon passes away, leaving no trace of the peculiar odor. There are several varieties of rosewood trees; the best however, are those found in South America, and the East Indies, and neighboring Islands.

A Brilliant Reception.

The hop to be given by the Bellefonte Club on Friday evening of next week, at the Bush House, promises to be a notable social event. The patronesses are Mrs T R Reynolds, Mrs W R Teller, Mrs J H Lingle, Mrs John N Lane, Mrs George W Jackson and Mrs Cameron Burnside. The committee of arrangements consists of J L Spangler, J L Montgomery, Hard P Harris, James H Lane, Wilbur F Reeder and Harry P Bush. The number of guests is expected to be large, and the dancing will be more than ordinarily animated. Grand march 8.30 o'clock.

Mr. Blaine's Future Movements.

When the Plumed Knight was interrogated in New York City, on Friday, in regard to his movements in the immediate future he replied that he did not think he would go out of the state of Maine until after the state election there on the second Monday in September. When asked about his health, he at first said he was perfectly well, and then added, laughingly: "That's a question I haven't answered in three years."

—At a meeting of the Executive Committee of the State Prohibition Committee held in Harrisburg on Thursday, Captain M. Marquis, of New Castle, was placed on the State ticket for Auditor General. A. A. Stevens, of Blair county, was chosen Vice Chairman to assist Chairman Barker during the campaign, and it was decided to open headquarters in Philadelphia on September 1.

—About a dozen weddings are to take place in Howard before the present seasons ends and the young ladies down there are so certain that they will soon be selected from among the many in the matrimonial market that each one is preparing her trousseau so that the wedding day need not be postponed very long. So young men who dislike long courtships may go to Howard.

—The Philipsburg *Ledger* furnishes the interesting information that an ingenious young man who lives near that place owns a very sagacious dog. He ties a fan to the tail of the animal and has instructed the dog to wag his tail in such a manner as to make the fan sway to and fro as the young man reclines in a hammock enjoying the breeze which the fan produces.

Offensive Mail Matter.

Postmaster General Dickinson, in announcing to postmasters the approval by the President of the act of Congress relative to writing upon the outside of envelopes or wrappers, states that such matter will be treated precisely as obscene is treated under the provisions of section 380, postal laws and regulations. Any postal card or any other matter upon the envelope of outside cover of which anything which reflects injuriously upon the person addressed, or any one else, or upon his character or conduct, or is plainly calculated and intended to injure his feelings or reputation, or bring him into discredit, or which threatens him, will be excluded: Anything in the nature of an offensive or threatening dun apparent upon an envelope, outside cover or postal card, or conveying the suggestion that such dun is enclosed, will be excluded as non-mailable under this act.

—The Lick Observatory has been formally transferred to the State of California, according to the terms of the donor's will. So much more of the funds has been expended in building the Observatory and in the purchase of instruments than was expected, that there will be only a comparatively small amount left for the work of science. California, however, will make good all deficiences. At an elevation of 5,000 feet above the sea, life will be attended with some discomforts, even though the pleasures of science will go far to compensate observers and others for the drawbacks which will attend life there; but there must be money, and considerable of it. In a sense never before realized since the science of astronomy has been pursued, this Observatory is indeed under a light in the skies.

Death of Mr. Martin Kerns.

The death of the venerable Martin Kerns occurred on Friday night between 9 and 10 o'clock, after a brief illness. The deceased was 82 years of age and had lived in this place a very long time. A son, whose name is also Martin, survives him. Mrs. Peter McMahan is his daughter, and Mr. John Powers' first wife was also a daughter of this venerable gentleman. He was an excellent citizen and had the respect of all who knew him.

—All lovers of fine furniture should visit the store rooms of the Rowe Bros., in the new Arcade. Such an assortment of fine furniture is not often seen in one establishment—and at prices so low as to seem almost incredible. They have now ordered a new stock of lounges, tete-a-tetes, etc., which promise to be the most handsome as well as durable of anything of the kind ever brought to Bellefonte. Will be in next week; go and see them even if you don't want to buy.

—It is noticable that where there are good roads the farmers are more prosperous and the farms more valuable than where the roads are neglecteed. Good road horses and good carriages are found where the roads are good, and the people appear to be more contented. It is certain that money invested in roads is well invested. It pays a big interest and everybody gets a share of it.

—Bellefone with a population less than one-forth that of Altoona, has 164 telephones to this city's 96. Perhaps there are fewer fellows in Bellefonte who use their neighbors' telephones than in Altoona.—*Altoona Tribune.*

Oh, yes; there is abundance of scope for neighborly courtesy in that direction even here.

The "Republican" for 25 Cents

The coming campaign is to be one of the most important in the history of the Republican party. For the first time our opponents have thrown off the mask and stand out in their true light as the avowed enemies of Protection to American Industries. Many of them believe, or profess to sincerely believe, that Free Trade will prove to be in the best interest of the country. This campaign, therefore, is to be a battle of principles more than men. It will be a battle in which the humblest as well as the highest will have a deep personal interest; it affects each citizen vitally; the policy of Free Trade or Protection affects the price of labor and the price of every product that is made in our manufacturies or grown on our farms.

The BELLEFONTE REPUBLICAN will fearlessly and earnestly advocate the principles of the Republican party and Protection to American farmers and mechanics. We feel that it is important that every citizen should educate himself upon this great subject, and the REPUBLICAN will spare no pains to make this important question plain to the humblest citizen. In order that the paper may come within the reach of all we have concluded to make the following low offer which will be less than the cost of the white paper.

We will furnish the REPUBLICAN from now until after the campaign is over and the result announced for

ONLY 25 CENTS.

This should place this paper in the hands of all even the poorest person in this county. We will give you the best county paper in the State five months for the small sum of 25 cents.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhœa, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

OLD DR CHASE'S
NEW RECEIPT BOOK.

His Last & Crowning Life Work.

Dr Chase's Third, Last and Complete Receipt Book and Household Physician, or the Book for the Million, contains nearly 900 pages and sells for $2.25 in cloth binding and $1.50 in imported oil cloth, marble edge, and is justly by him called

'THE CROWNING WORK OF MY LIFE.'

It is the result of over half a century's observation, study and experience. Yet this embodies no compilation of his former books, IT IS WHOLLY A NEW BOOK. If 30 years ago he could produce a book that has had a sale of over fifteen hundred thousand copies, and has made his name familiar in nearly every English-speaking home in the United States, Canada, and South America, what KIND of a book could or would he produce as his Crowning Life Work, WITH MORE THAN THIRTY YEARS OF ADDITIONAL PRACTICE AND EXPERIENCE? The book itself answers the question, and is the most valuable production in the history of book publishing.

The Book is published in both English and German.

This is not brag.

It is a plain statement of an honest fact.

This is not true in reference to the WEEKLY PRESS.

It is especially edited by a trained corps of writers selected for the purpose of making the best paper.

It is adapted to the improvement and enjoyment of both sexes, of all ages, of every family, whether a resident of the city, village or country.

It is an old paper and carries its age and reputation equally well.

We will send the WEEKLY PRESS, subscription one year, $1.00, and REPUBLICAN, subsciption one year, $2.00, *both, one year, one subscription price,* $2.00.

We make this unexceptional proposition in order that the *Weekly Press* and REPUBLICAN may go on trial in every household in this county for an entire year.

MR. BLAINE'S SPEECH.

After the address of welcome to James G. Blaine, in New York City, on Friday, he responded as follows:

"Mr. President and Gentlemen of the Republican Club and Fellow Citizens: To enable you to appreciate this welcome, each and every one of you should be absent from home and country for the long period of fourteen months. I am sure you can have little conception of the great gratification of that instant when I saw the shores of the great republic. I cannot tell you how deeply grateful I am to be remembered in this manner by you and these assembled gentlemen. It is a scene I shall never forget. It is an occasion which I assure you I appreciate from the depths of my heart. It is shadowed only by the sad event which greeted us as the first piece of American news we heard—the death of General Sheridan, a man who was above party and stood for the union of the states. [Shouts of "Good."] With that exception my arrival upon my native shore was unatteded by anything but joy and happiness.

"The campaign on which you are about to enter should be prefaced, if that were possible, by every voter in the United States seeing what I have seen ('Good, good') and hearing what I have heard during the last year. [Applause.] The progress of the campaign in the United States is viewed from the European standpoint with an interest as profound as it is in the United States. It is the opportunity of England. It is the long-looked-for occasion upon which the cheaper labor and the cheaper fabrics of the Old World expect to invade the New and lower the wages of American workingmen to the European standard. [Great applause.] Is it not a contest of capital against capital; it is not a contest of partisan against partisan. It is much higher than either of these. It transcends all party motive [Applause.] Whether the great mass of American citizens who earn their bread by the sweat of their brow shall be seriously reduced in their emolument from day to day [applause]—that is the whole pith and moment of this question. Anything that adverts the question from that single point is a weakening of the campaign. [Applause and cries of 'good.'] I say here, as I hope to say with much more elaboration, (loud cheering and cries of 'That's what we want)—I say here that the wages of the American laborer cannot be reduced except with the consent and the votes of the American laborer himself. The appeal lies with him. It comes to his door and asks him whether, with the great power of the franchise and the great majority he possesses in his own hand, he is willing for himself, and his associates, his children and his children's children, to take the fatal step, at the bidding of an American congress and an American president who are governed by that element which sought to destroy this nation.

"But, gentlemen, it is not a time for a political speech. My heart is too full to enter on lengthened argument. In this moment of welcome and joy, getting home to old scenes and old friends, I must be allowed to enjoy the pleasantest emotions of the occasion. I can only add my fervent thanks to each and every member of the club and to all my friends and for the generous and joyous welcome they have extended to me in the harbor of New York.

—The last of the series of excursions of the Pennsylvania Railroad Company will be run on Thursday, August 23. The rate from the place will be $8.50, starting at 10.25 o'clock a. m. The date of the excursion covers the high water mark of the seashore season. All the resorts will be in their best feather, and the coast, fresh breezes which may be enjoyed there during the torrid heat of the dog days would be sufficient justification for going, even if the bathing were not of the best, the fishing fine and other attractions numberless.

—The story comes mainly from opposition sources that ChairmanQuay has organized a campaign for victory in North Carolina, and there is considerable that is corroborative from other quarters. The Farmers' Alliance of that State have made appeals to Chairman Quay, and speakers have been selected to attend a campmeeting of the Alliance at Mount Holly some time during the month. The most that any one will say at Republican headquarters is that North Carolina appears to be a promising field.

A RICH FIND.

GOLD IN CENTRE COUNTY.

FOUR VEINS OF DIFFERENT IRON ORES

Coal and Limestone in the Same Mountain Sufficient to Supply a 100-Ton Furnace for 100 Years.

The geological formation of the Karthaus basin is a series of surprises. There is no other formation like it in Pennsylvania and but one other in the United States, it being situated in Georgia, some thirty miles from Chattanooga, in the heart of the Appalachian range.

Besides the different minerals to be found in the Karthaus basin, choice specimen fossils of extinct species of animals and reptiles abound in its many diversified rocks.

For years past geologists claimed that there was a possibility that gold existed in the Karthaus region, but all efforts to discover the precious metal failed until recently when a vein of gold bearing quartz rock was discovered which, after being tested, was pronounced pure gold quartz and estimated to yield about $40 to the ton of rock. As far as developed the vein is from three to four inches in thickness, its width and length as yet undeveloped.

It is located on the "Buttermilk Falls" property, some three or four miles below the Karthaus bridge, where the Susquehanna river cuts through the Allegheny mountains. Persons disposed to be credulous in regard to this rich find can have their doubts removed by calling at the home of J. H. Holt, in the neighborhood and examine for themselves specimens of gold quartz taken from the ledge or vein referred to.

In the same geological basin which the recent discovery of gold has been made, valuable iron ore deposits exist in unknown quantities. On lands of J. H. Holt at the river, there has been opened an eleven foot vein of Carbinate ore, a vein of Kidney ore, a vein of Hematite, a good showing of bog ore and a rich vein of Specular ore, the latter analyzing 70 per cent., and the only deposit of that kind discovered in Pennsylvania.

In the immediate neighborhood of these rich deposits exist veins of coal and limestone which could be used in smelting and fluxing the ores. The Collins Brothers, of this place, have leased one of the ore deposits for which they pay 25 cents per ton royalty of ore mined, and are now engaged in mining and shipping it to their furnace at this place.

The discovery of the precious metal, with the opening of the iron ore deposits, has created considerable excitement in the neighborhood and in the near future we may expect to see in full operation a large smelting furnace, a rolling mill, and if the vein of gold quartz should prove workable, a gold stamp mill. Upon a thorough examination of the premises we are forced to come to the conclusion that no richer deposit of the useful metals exists anywhere than can be found in the Karthaus basin.

To be Tested.

A number of stockholders of the Eureka Car Coupler company were in town yesterday and examined the new couplers, which are to be placed on two Pennsylvania cars at the car repair shops, to be tested. There were twenty-five or more present, and all were satisfied after examination, that the couplers would do the work. The couplers would have been placed on the cars yesterday, but the employers were called out to the wreck at Vandeyander bridge, and the test had to be postponed. Among the citizens present and interested as stockholders were: Thos. Adams, of Mt. Union; Rev. J. N. Moorehead, of Everett; C. Guyer, of Tyrone; M. L. Rex, D. Cowher of Mapleton; Geo. W. Yocum, John J. White, I. H. Edwards, of Huntingdon, and others. A meeting will be called as soon as the couplers are attached to the cars and a practical test will be made.—Huntingnon *Local News*

A Few Pennsylvania Points.

A 4-year-old Hungarian girl named Gallwick, whose parents live on Tenth street, Braddock, was poisoned by eating jimson weed Wednesday. She will probably die.

During a quarrel over a keg of beer at Kittanning Wednesday, a man named Yont was hit on the head with a base ball bat and almost killed. His assailant escaped.

Edgar Bross, a lineman employed by the Scranton Electric Light Company, climbed a pole at 21.40 Monday night to repair a carbon and was killed by a shock of electricity.

Wednesday afternoon John H. Tilfold, proprietor of the *Tribune*, of Beaver Falls, was arrested on a charge of criminal libel preferred by W. W. Hodge. Tilford gave bail in $500 for coart.

—The *Centre Democrat* announces that "among the members of Company B all is turmoil and preparation." We hope no one will be alarmed by this announcement. We can authoritively say that no "turmoil" now exists or ever has existed in quiet, peaceable Company B and the boys will pass the ten days at Camp without any quarreling. "Turmoil means harassing labor, trouble, disturbance, etc. It is the opposite of peace and amiability. Now if the *Democrat* had said that lively anticipation or excitement exists in Company B the many friends of the soldiers boys would not have been thrown into such a sudden and causeless condition of apprehension for their peace and prosperity at camp.

One of the Hospitals.

The DuBois *Courier* is led to believe that a hospital to be erected in the bituminous coal district will be located there. It says: "Major James Hime and John Goodyear met the hospital commission at Jersey Shore and the advantages of DuBois as a location for one of the State hospitals, which it is proposed to build, were again presented. The result of their efforts was to get some consideration for the place and finally almost an assurance that it would be chosen. So favorably were Messrs. Hime and Goodyear impressed with what they learned that both are confident a $50,000 hospital will be established here in the near future. Major Hine has been particularly zealous in the work of securing attention from the commission, and if the State invests a large amount of money here the success in securing such good results should be largely attributed to his efforts.

—It seems strange that farmers can be deceived so easily, but it is said that several farmers in Clearfield county have recently been deceived by the weakest sort of a deception. Two men call at a farmer's house and tell him that they know of $1200 which he can have for $500 cash. They tell him that they must send his $500 to Philadelphia and they will help him to put his money into packages of $100 each for transportation to that city. Then the packages are first put up and one of the men cries out that the farmer's barn is on fire. The farmer and one man hurry from the house and the other fellow more slowly. It is a false alarm. The visitors take their departure promising to return with the $1200. But when the farmer examines again what he supposes to be his packages of money, he finds that they have been substituted for packages filled with worthless brown paper.

The Champions win Another Game.

The Fleming nine, on Thursday, was made up as follows: Musser, Woodcock, Bayard, Burns, Hoffman, Laurie, Mattern, Valentine and Hamill. The Y M C A Stars had the following players: Cunningham, Snyder, McGinley, Orbison, DeWitt, Cassidy, Bright, Pierce and McKnight. The score was 33 to 5 in favor of the Flemings.

Features of the game were home runs by Mattern and Hoffman and admirable double plays by Laurie and Burns. This is the fifth consecutive game in which the Flemings have been victors, including one game with the State College team, and they deserve the title of "champions of Centre county."

An Approaching Social Event.

On Friday evening, the 17th instant, the Bellefonte Club will give a grand reception in the parlors of the Bush House. Stopper & Fisk's orchestra, of Williamsport, has been engaged for the occasion. Three hundred invitations have been issued and the affair is expected to be brilliant in the extreme.

Among the chaperons are Mrs Reynolds, Mrs Lingle, Mrs Teller and Mrs Lane.

A competent selection of young gentlemen members of the club constitute the committee of arrangement.

For Governor of Indiana.

General A. P. Hovey was unanimously nominated on Wednesday for Governor of Indiana on the Republican ticket and will be triumphantly elected. It is the best nomination that could possibly have been made. He was a distinguished general in the war of the rebellion, has been minister to Peru, and a judge of the Supreme and lower courts in Indiana. The election of any candidate was already certain and this will serve to increase the Republican majority to 20,000.

Not Competent.

We think from the admirable speeches from time to time made by General Harrison that the great Colonel McClure, who invented Quay's dispatch to Beaver, "Don't talk," that he is not quite competent for a criticism as to General Harrison's speaking.

General Harrison every day distinguishes himself as a man of great power, of high statesmanship, broad views and of intellectual culture.

—Williamsport and Altoona, which are about equal in population, differ greatly in their use of the telephone. Williamsport has 471 while Altoona has only 96. Lock Haven and Bellefonte are nearly equal in population, but Bellefonte has more than double the number of telephones, using 164 to Lock Haven's 66. Bellefonte has almost twice as many telephones as Altoona.

The Hair Breadth Escape of a Lock Haven Dude.

As the editor of this paper was sitting quietly in his chair, on Wednesday afternoon, revolving in his mind important affairs of state, his reveries were disturbed by a shadow at the doorway. No noise had preceeded the appearance of this shadow and he looked to learn its cause. There in the doorway stood a dude—a Lock Haven dude, attired in a sack coat, gold eye glasses and a jewelled snuff box.

Ye editor gazed at the stranger nonchalantly, a sudden interest taking possession of his mind to see what Mr. Dude would do and say. From the pocket of his coat the young man pulled a gold-mounted revolver and leveled it at us. Though we were guiltless of doing anyone any harm we determined to die like a man. He did not give us time to interrogate him, but thus he spake in silvery accents: "Who said that Bellefonte has the prettiest girls in the State? I am from Lock Haven, where the young ladies have formed a natural protection association. Unless you will acknowledge that they are the loveliest creatures in existence you may as well say your prayers."

We fear not girls or dudes so we bravely confessed that we considered Bellefonte girls far lovelier than those of Lock Haven. "Furthermore," we said, "we are positive that the Lock Haven girls eat ten buckwheat cakes apiece for breakfast every morning and don't know the difference between a coffee cup and a finger bowl.

"Bang!" went the instrument. We caught the ball in our hip pocket and hurled it back at the angry young man. It passed very near his head, the wind from the bullet sweeping him from his feet and down the stairs. The bullet went down the stairway and then there was a loud yelp. The young man had left his pug dog, his cane and his toothpick shoes below, too fatigued to bring them up, and the bullet had entered the dog's mouth. There it lodged and the dog soon died from the agony thus inflicted. The young man, in falling down the steps, would also have been injured had he not alighted on the soft side of the dog with his hands grasping his cane."

The young man has not yet recovered from the nervous shock thus occasioned, but the dog has been buried. We hope to restore him (the young man) to his home and female friends in Lock Haven.

Inter-State Picnic Announcement.

The great inter-state picnic at Williams Grove, Cumberland county, will begin on August the 27th, under the auspices of the Patrons of Husbandry. The excursion tickets will be good for eight days, beginning on the 27th. From this point by way of Lock Haven they will cost $4.80 each, by way of Tyrone, $5.00, and on the Lewisburg and Tyrone branch $4.34.

We consider it a mistake to make one day a Democratic day and one day Republican, as the managers seem to have done. We noticed that on Tuesday the 28th, all the principal Democratic speakers, including President Cleveland, are on the programme for addresses while on Friday there are to be several Republican speakers. Prominent speakers are announced to be present each day and the display of implements and products will be the finest that has ever been made on such occasions. These picnics have attracted large crowds of late years and we have no doubt that this will be the greatest thus far in its history.

En Route for Lake Conneaut.

Details from companies B, C, G and I, Fifth regiment, and from the Sheridan Troop, arrived in this city yesterday and proceeded west on mail train in the afternoon. The camp ground of the Second brigade at Lake Conneaut was their objective point. They were under the command of Lieutenant Hale, of Bellefonte, and will get the camp in readiness for the main body of the regiment, which will pass through Altoona on Friday afternoon next.—*Altoona Morning Tribune.*

A Club to Nominate Harrison.

This item of political reminiscence is from the *Daily Local News* of Huntingdon:

"A gentleman in this place informs us that Huntingdon had the honor of the first club to secure the nomination of General W. H. Harrison for President in 1840. The place of meeting was at the Sorrel Horse hotel, where the P. R. R passenger station now stands, and which was burned down in April, 1861. John Whittaker was the proprietor of the hotel, and a number of the citizens of the town held their club meetings there. Sometime in 1839, they discussed at their meeting the question of nominating a candidate for the presidency, and the name of General Harrison was chosen. The following persons were present at the meeting: Philip Shultz, chairman, Thomas Fisher, David McMurtrie, John Williamson, John Whittaker, David Snare, and two or three others whose names are forgotten. David McMurtrie is the only one of the number now living, aged 84 years."

"Choice Romance."

We are pained to notice that the *Keystone Gazette* calls the disappearance of Mrs. George E. Royer from her home near Millheim a "choice romance." A romance is a fictitious and extravagant tale of adventure and love and this sad event has none of the elements of romance about it. It is not fiction, but all too true. It is not likely that any of the persons concerned were influenced in their acts by love of advanture. We trust that Mrs. Royer may be restored to her home and family and that domestic tranquility may once again abide in the home now the scene of so much unhappiness.

—The dwelling house and barn of Mr. David Rager, of Jackson township, Cambria county, were burned with their contents by an incendiary fire between 9 and 10 o'clock Monday night. The house was a one-and-a-half story log structure and the barn was a story frame. Mr. Rager was absent from home when the fire broke out, but subsequent investigations proved that the logs had been saturated with coal oil and the torch or match then applied. The loss is placed at $600, with no insurance. A party in the vicinity is strongly suspected of the crime.

—There is trouble between the Johnson Steel Street Rail Company and its eight or ten rail-straighteners in the Moxham works on the subject of wages. It appears they demanded an increase and the company refused to grant it, Superintendent Thomas offering to pay them at the rate of fifteen cents per rail. The men then called upon Mr. Moxham and asked for $3.50 per day. This he declined, but offered them 17 cents per rail. The men could not see their way clear to accept this proposition, so they quit and have been paid off.

—Mr. Robert Valentine was looking through some of the old, discarded furniture in his residence the other day with the idea of having it renovated. Among the articles was a venerable looking table. When the top of the table was removed Mr. Valentine was surprised to find the inscription "1840. Old Tip's the Boy," and also the American flag painted therein. This proves that it must have been manufactured during the Harrison campaign of 1840 and by some one who supported the present candidate's grandfather.

—Company B went on their way to camp Friday morning. The company was of the regulation strength consisting of sixty men and three officers. With a passenger car, a baggage car and a stock car, all for their special use, they went to camp more comfortably and well equipped than ever before. The boys seemed to be in the most exuberant spirits and look forward to camp with feelings of special pleasure. The weather which is now cooler than for a week past, is in their favor and we hope that, for their comfort, it will remain so.

—The Huntingdon *Globe* records this accident: "Charles, or "Hern" Woods as he is familiarly called, met with an accident at an early hour Monday morning that may render him a cripple for life. While walking up one of the arched spans of the 4th street river bridge he overbalanced and fell to the river bank, a distance of about 30 feet, alighting on his back. With the aid of a companion he was enabled to crawl up the bank and was given a resting place on an improvised bed in Port's livery stable until the arrival of a physician. Dr. D. P. Miller was summoned who on examination found that the young man's spine is seriously injured.

Local Department.

—The nail plate department of the nail works resumed operations Tuesday morning.

—It is said the weather will be cool until August 27 when there will be another warm wave.

—E. C. Karns, ex-poor director of Huntingdon county, died suddenly on Monday afternoon.

—A young tree on Curtin street was snapped in two by the high wind of Sunday afternoon.

Miss Minnie Burton, of Dover, Deleware, is a guest of the Misses Meek, daughters of the Hon. P. G. Meek.

—F. Potts Green is having important repairs and improvements made to his handsome residence on Linn street.

—An ice cream festival will be held next Saturday evening in the Court House yard for the benefit of the Y. M. C. A.

—The order of the Knights of the Golden Eagle continues its remarkable growth and is perhaps the most prosperous in the country.

—The Sheridan Troop, N. G. P., arrived at Camp Ord, Conneaut Lake, at a late hour on Saturday night, not much worse for the long march of 171 miles.

—The air was full of electricity Sunday afternoon and night, and the storm of rain which occurred about 3 o'clock Sunday afternoon was startlingly sudden and severe.

—The Kennedy M. E. Sunday-school, near Howard, will hold their picnic on Saturday, the 25th instant, in S. B. Leathers' grove. The Sunday-schools at Mt. Eagle and Roland are cordially invited to participate.

—The National Board of Underwriters offer a reward of $1,000 for the apprehension and arrest of the person or persons who set fire to buildings in this place. This offer includes the Bush Arcade fire and all that have happened since that time.

—Prof. Harrison of Pleasant Gap, who is a very competent and experienced instructor, was elected on Friday evening as teacher of the school taught by Prof. J. Milton Furey. The school board also decided to lay a patent pavement in front of the new school house.

—The showers of Sunday seemed to be well timed. None of them happened while people were going to or from church—the one in the afternoon occurring while the Sunday Schools were in session, and that of the evening while people were comfortably seated in the churches. Thus they did not interfere with the attendance at any of these services.

—We judge by notices we saw in the Lock Haven papers on Saturday that trains were run from that place on Sunday to Clearfield and Philipsburg. We are certain that to run a train on Sunday is as bad as to steal, lie, defraud or any of the other offenses less heinous than murder. It is a disgrace to Christian civilization, and if men's common sense won't lead them to stop it there should be civil laws prohibiting any thing of the kind as there are moral laws which forbid it.

—The delegates of the several fire companies met on Tuesday evening and elected Mr. L. T. Munson to be chief marshal and Geo. L. Smith as first assistant. The position of socond assistant was left vacant for the present. Mr. Frank Wescott, who was a delegate of the Logan company, desires us to state that his nomination of James Cornelly to be second assistant is misunderstood Some members of the Undines have taken it to be an insult, whereas he made it because he considers Mr. Cornelly the best qualified man for the position.

—On Sunday evening the music in the Episcopal church was indeed beautiful. The voluntary was by a quartette, consisting of Miss Julia Valentine, Mrs. Knowles, Dr. George Harris and W. Fred Reynolds. During the offertory Mrs. Knowles sang as a solo the beautiful hymn, "Jesus, and shall it ever be, a mortal man ashamed of Thee?" It is the same selection which she sang several years ago in the church and has been a delightful memory with all who heard it ever since. She sings not only with beautifully clear and distinct enunciation, but with great feeling and power.

—The boarders at the Bush House have organized a baseball nine, which will be known as the "Bush House" Nine. Colonel Teller, although not a player, is the manager, and has presented dandy suits to the nine and they are bound to cut a swell when they appear on the Diamond. Arrangements are being made with the "Cresson Springs House Nine" for a game here in the near future, to be followed by a return game at Cresson. When the game is played at Cresson it will be in the nature of a grand excursion to that popular resort. Meanwhile, any club that dare cross bats with the Bush House Nine will please address the manager. Here's a chance for the Flemings, of Bellefonte, or the Hopes of Philipsburg, to lose their laurels.

GHOSTS AND GOBLINS.

She Looks Like Mrs. Royer—A Variety of Items from Howard and Other Points Along the Bald Eagle.

A lady answering the description of the missing Mrs. Royer, of Millheim, took dinner last week at Mrs. John Lauth's at the forge below Howard. She asked if Mrs. Lauth knew of any farmer who desired female help. From there she went up the Bald Eagle.

Their Honors Judge Furst and ex-Judge Orvis were fishing for bass in the Bald Eagle, at Howard, on last Sturday. Their catch was less than two bushels.

Mrs. Stitzer, of Howard, and Mrs. Olewine of Bellefonte, on Friday the 10th instant, partook of ice cream at Ceader's bakery. Whilst doing so Mrs. Stitzer dropped a ten dollar bill on the floor, but did not miss it until after she had taken her seat in the train. The next morning she telephoned Mr. Ceader's about the loss, and when he examined the floor of the saloon he found the missing bill and returned it to the owner.

Considerable excitement exists in the neighborhood of the Jacksonville Narrows toll gate. Strange noises and doings are of a nightly occurrence there. Many people believe that the place is haunted by ghosts and it is reported that the family frequently spend the night with neighbors to escape the disturbance. For several nights past a watch has been kept on the premises, but thus far without discovering the cause for the unusual manifestations. This is the place where last summer the family claimed that poison had been put in the milk in the spring house and also in their coffee. This is the story as we have heard it, but of course there are no such things as ghosts, and the family may rely upon it that some one is either attempting to play a practical joke on them, or else is a real enemy and is trying to do them harm. In either event the offender should be uncermoniously stopped.

Mr. A. T. Long, of Howard, who was recently elected Bishop for the United States by the River Brethren, but without salary, is about erecting a large carriage and wagon factory at the upper end of Howard near the new foundry. Mr. Amos Dunkle has received the contract and will commence work on it this week.

The Mill Hall Band will hold a festival on Friday and Saturday, August 24 and 25. The Howard Band will furnish the music to make the affair lively.

Mr. and Mrs. McIntire, the handsome bride and groom, were in Bellefonte on Saturday and spent Sunday at Fillmore with his father.

On Wednesday, August 8, Mrs. Mary Holmes, of Jacksonville, celebrated the 85th anniversary of her birth. It was a happy reunion of many of her relatives and friends. Mrs. Holmes is unusually active for a person of her years, and many were the congratulations she received upon the occasion.

The Patrons of Husbandry will hold a picnic in Joseph Murry's grove, near Mill Hall, Bald Eagle township, Clinton county, on August 15. Among the prominent speakers to be present we notice the name of Hon. Leonard Rhone of this county.

Robert Cooke, of Howard, father of Sheriff Cooke, voted for General Harrison in 1840. He has one brother and five sons, making seven in a family who will vote for General Harrison's grandson this year. Mr. Cooke was a delegate to the young men's convention that nominated General Jackson for his second Presidential term.

Scenes at the Railroad Station.

There was great excitement at the depot Monday morning, produced by the large number of trains which came into the depot from every direction. They were so numerous that even the conductors could not tell which was their respective trains. Allison Haupt, who was on Superintendent Blair's special train, circulated about quite freely and succeeded in bringing order out of confusion worse confounded. In the midst of the excitement the train from Lemont almost telescoped a passenger car standing solitary and alone on the track. The trains seemed fuller than usual of passengers and Superintendent Blair and the pretty ladies who accompanied his party looked in wonder at the inspiring scene. Irv Hagerman, who was up from Lock Haven, sighed because no such occasions of wild and unrestrained excitement occur in the annals of that town. Prof. Furey, who also looked on, took it all in knowing that he would enjoy no more such spectacles after he immures himself in the lonely lumber city. In the mist of it all a strawberry dude from New York City, came out from beneath his duster, in the Tyrone train, and viewing the scene through his eye glasses inquired if this was a Granger Picnic or the arrival of Hon. James G. Blaine. A gentleman who much resembled Prof. Etters missed his train (the Snow Shoe express) as it vanished so quickly and so he ran after it. The Professor don't run very fast, but, nevertheless, we hope he overtook his train at some of the neighboring stations. We guess Superintendent Blair profited sufficiently by this object lesson to hasten the building of new depot facilities.

—Rev. J. O. Davis delivered a most admirable sermon on Sunday morning from the narrative of the Pharisee and the Publican who went up to the Temple to pray. The discourse contained truly valuable advice in regard to worship and of what it consists; how the worshipers should engage in the services; congregational singing; what the sermon should be, etc.

An Earnest Appeal for Sports.

MR. EDITOR: A town without sports is like the play of Hamlet with Hamlet left out—dry and monotonous. Such is the condition of our town to-day. And it is strange that while Bellefonte is so enterprising and progressive in its social, business and industrial features—surpassing the majority of Pennsylvania towns in these respects—it should lag so far behind these towns in amusement features The papers daily record the sportive programmes that are carried out before large assemblages throughout the State, while Bellefonte lies nestled among the mountains affording no diversion for its pleasure loving inhabitants, except what can be gathered from a little tennis or a casual game of base ball with scores varying from 5 to 40 runs. Now, this state of affairs exists unnecessarily for the simple reason that we are amply supplied with the material to constitute a good athletic programme, and especially in that favorite national pastime, base ball. We have a good nine organized under the name of the Flemings that is composed of able and talanted players who have, during the season, proven themselves invincible in all the games played—five in number. While its players are young men, yet if they stick together and continue their practice ere long they will entitle themselves to a high position in some one of our big town leagues. As they have succeeded thus far in vanquishing every opponent, I suppose, like the New Yorks, they are waiting eagerly and impatiently to add another victim to their already long list. At present they claim the championship of Centre county, but are loth to insist upon their claim if any other nine in the county can show its superiority by defeating them. We have many excellent players among the older fellows of town and could organize another first-class nine, but to sustain good nines and secure worthy opponents money is necessary. Now, let those who are fond of such amusements raise a fund, commit it to the trust of a worthy individual and therewith encourage our young base ball enthusiasts to put up some exciting games for the enjoyment of the multitude. Money will give us good grounds, good nines and good challenges. Money and challenges are now in order from any source.

LUDUS.

Teaching the Teachers.

EDITOR *Daily News*.—It is evident to my mind that there might be a great improvement in the conduct of Christian ministers in the matter of calling on the members of their flock. It is a fact which experience teaches us that many ministers too generally restrict their visits to the more affluent church members. We do not say that all do so, for our experience does not extend to all, and hence our remarks apply only to such as come under our immediate notice. There are many families who esteem very highly a visit from a minister. But for years they miss such privilege merely because their poverty excludes them from the notice of the clergy. Particularly distressing is this to persons who have been in better circumstances and afterwards have met with reverses. We know of instances where, when people were rich, ministers of every branch of the church would flock to their house. But poverty came and they have disappeared entirely from the notice of these gentlemen who profess to stand in the place of the Great High Priest.

We dislike to teach those who by right of their high office are teachers of others, but what we say is perfectly true and should be remedied if Christ's kingdom is to be extended. VERITAS.

En Route for Camp.

PITTSBURGH, Pa., August 13—Governor Beaver and staff passed through the city at 10.30 o'clock this morning, en route to the military encampment at Conneaut Lake. They were on a special train which was being run from Harrisburg to Conneaut. The party consisted of fifteen commissioned and eight non commissioned officers. Governor Beaver, while at the Union station, in speaking of the political outlook, said that everything pointed toward a very large majority in Pennsylvania. He says that the situation in New York is favorable for the republican party. He thought that the party would carry New York.

—How few people seem, in their actions, to carry out the Christian plan of conduct. For instance, in the single item of giving feasts. The system of rules prescribed for Christians declares that when they give a feast they shall invite the halt, lame, blind and poor—people who cannot return the compliment. Yet, we have not heard of any such Gospel gatherings in our town. Now it is quite evident that there are a few Christians here, even among people who give feasts. Is it possible they never read this rule of etiquette for such occasions?

Miss Grace Furey, of Altoona, who is well known here, and Miss Myrtle Carothers, of Tyrone, are at present visiting in this place.

ON THE MOUNT.

Snow Shoe a Lively Place Even in These August Days.

The M. E. Sunday school will hold their annual picnic in Rankin's grove on Thursday, August 23d.

Mrs. Wiliam Buddinger, of Salladasburg, is visiting her son, T. B. Buddinger, the merchant.

Mrs. Walter Potts, of Irvona, whose health has been impaired since moving there several months ago, is visiting her relatives here.

Miss Laura Lucas, one of Snow Shoe's fascinating school marms, returned to Bellefonte last Thursday, after a two weeks visit at her home near Snow Shoe.

Al Thompson met with a decidedly painful accident last Monday. The horse he was driving became very unruly and unmanageable. The buggy capsized and Mr. Thomson was thrown violently upon the hard ground, head foremost. His right arm was badly broken and he received several painful bruises on his head and shoulders. The buggy was a complete wreck.

Mrs. Dusenbeers, of New York City, is a guest at the handsome residence of O. M. Sheets. She considers Snow Shoe a delightful place to stay during the heated term.

Mrs. P. B. Sprinkle and daughter, of York, Pa., are guests at the Mountain House.

Samuel Dixon is at work painting the residence of T. B. Budinger. Anyone in this vicinity who wants a job of painting well done should call on Sammy.

Dr. J. P. Glenn and wife left on Friday morning for a visit to Altoona and Huntingdon. The Doctor and family expect to move to Altoona in a couple of weeks.

Rev. Osler, an eminent divine from New England, delivered an eloquent sermon in the Second Advent church on Monday evening.

John Morgan and a Mr. Sample, who have been visiting friends in Scotland, have just returned.

T. B. Budinger, agent for the Inman line of steamers, last Friday received two large handsome steel engravings of the steamer "City of New York," in which James G. Blaine returned from Europe.

On Monday, the 7th, as the east-bound passenger train on the Beech Creek railroad passed the Rock Cut, near No. 10 mines, some one hurled a stone through the window of a sleeping car, and it is reported a lady passenger was injured by the broken glass. The train was stopped as soon as possible and some of the guilty parties are under arrest.

J. W. Bedford and wife left on Monday morning for a long drive to West Virginia. They do not expect to return for about four weeks.

The Fountain Branch is completed and they are shipping coal at the Madill mines at the rate of five cars a day.

Snow Shoe's population was increased by four new comers last week, and all four native born Snow Shoe citizens—not one of whom will vote for Cleveland, for they all want protection to infant industries.

The Approaching County Convention

In response to the call of Chairman Jno. G. Love, which has been already published, the Republicans of Centre county will meet in the Court House on Tuesday, Aug 28. The elections for delegates to that Convention will be held on Saturday, August 25. Let the proper care be exercised in the selection of such delegates and let the Republicans generally be represented at the polls at such delegate elections.

With judicious nominations this year it is quite certain that the county can be carried by the Republicans. The Democratic ticket just chosen is a weak one and gives the Republicans strong promise of again carrying the county. Two candidates for the assembly are to be chosen, and one of those should be Philipsburg's excellent citizen, Mr. C. T. Fryberger. The other candidates to be selected are one for jury commissioner and one for coroner. Then three congressional conferees must be chosen and also a county chairman for the ensuing year.

But our purpose now is only to call attention again to this convention and to remind Republicans of their duty, more important now when success is almost certain to the party.

Reduced Rates to Grangers' Picnic.

The great interstate picnic of the Patrons of Husbandry at Williams' Grove, Cumberland county, will be conducted this year on a larger scale than ever. Over two hundred thousand practical farmers, representing thirty states, are expected to be present, and many of the most noted agriculturists of the Union will address the meetings. The display of farming and domestic machinery and implements, agricultural and horticultural products, fine stock and poultry, will be superior to any similar exhibition ever held in this country. The grounds are newly fitted up and provided with all necessary accommodations for the hosts of visitors. Tuesday, Wednesday and Friday are distinguished as big days, and on Tuesday the grounds are to be favored with the presence of the President of the United States. The picnic will open on Monday, August 27th, and continue for six days. For the benefit of visitors the Pennsylvania Railroad Company will, on August 27th, 28th, 29th, 30th and 31st, sell excursion tickets at a *single fare for the round trip*, good to return until September 3rd, from the principal stations in the following territory: On the Pennsylvania Railroad Division from stations between Bryn Mawr and Braddock, both inclusive; on the Northern Central Railway from stations between Lutherville and Troy, both inclusive; on the Philadelphia and Erie Division from stations between Sunbury and Lock Haven, both inclusive, and from all principal stations on Frederick Division. Special trains, of which later announcement will be given will be run as occasion requires.

Rev. P. McArdle, the genial and learned pastor of the Catholic church, was in New York city last week, where he went to meet a youthful niece who just arrived from Europe, and who we believe, will make her home here in the near future.

Miss Lulu Brew, of Tyrone, who has been visiting relatives in this place almost a month, returned to Tyrone on Wednesday evening. Her young friends in Tyrone were so pleased to welcome here that they got up a surprise party in her honor.

Isaac Lucas, who served during the war in the 5th Pa. Reserves, is living on his little farm at the "Summit" in Snow Shoe township. Mr. Lucas, although 63 years of age, is quite active and draws a small pension for his bravery during the rebellion. He had three brothers killed in defence of the Union.

CAMP LIFE.

How the Detail of the Fifth Reached Camp Ord—Company B the Life of the Camp.

From a special correspondent.

CAMP ORD, August 13.

TO EDITOR OF DAILY NEWS:

Dear Sir: We (which means the detail of Company B, N. G. of Pa.,) arrived here on Thursday morning, the 9th instant, at 4 o'clock a. m., after riding all day and all night. I will give your readers a brief description of our journey here and also the proceedings of camp life during Thursday, Friday, Saturday and Sunday.

We started from home at 10.30 a. m. and arrived at Tyrone at 11.45 a. m. It was exactly 1.07 p. m. when we left Tyrone and at 1.45 we reached the city of Altoona. There we remained two hours, which time we spent in "taking in the sights" of the city. From there to Pittsburg we had a very tiresome ride, as you may judge by what one of the boys said in reference to it. He said: "The longer a fellow lives the "dumber" he gets; you can see, we have to stop at every fence corner." We arrived in Pittsburg at 9 p. m. and remained in the Smoky City until 10.30. After leaving there we were all lost in slumber until arriving at Evansburg, which is the nearest railroad station to the camp ground. We then got into the steamer and rode down the lake to the dock which is nearest to the camp ground. Conneaut Lake is about four miles long and about one mile wide. It is a very beautiful lake surrounded by a fine beach and contains splendid water.

The details of the different regiments arranged the camp on Thursday and Friday. The regiments all arrived here on Saturday evening. They had the first dress parade on Saturday evening. Sunday morning they had regimental services. Your correspondent attended that of the Fifth regiment, which was held by the chaplain, Mr. Strong, of Bedford. On Sunday afternoon an attempt was made to have dress parade, but the rain fell in torrents, and the entire brigade were obliged to retreat in double quick time. Give Jubiter Pluvious credit for the first victory.

Company B of Bellefonte certainly "take the biscuit" for their ability to furnish fun and crack jokes. They keep the camp in an uproar of laughter all the time. The boys spend most of their spare time in row boats on the lake, or in fishing for bass and sun fish, with which the lake is supplied in great quantities.

Many of the Bellefonte boys have been on the sick list since they came here.

Believing that I have given you a description that will afford you an idea of Camp Ord, I will close hoping to see you all soon.

I am very truly yours,

A VISITOR.

Personal Pencilings.

Miss Jennie Crittenden went to Tyrone on Tuesday to visit Miss Jennie Burley of that place.

We notice that H. C. Brew and family, of Tyrone, will spend several days at Newton Hamilton camp.

The presence in Altoona of Miss Bertie Scanlon of Bellefonte is recorded in the papers of the former place.

Miss Eva McCartney, one of Altoona's fairest maidens, is visiting Misses Lizzie and Blanche Kunes in Eagleville.

Mrs. Hall formerly of Rebersburg, this county, but now of Kansas, is in this vicinity visiting relatives and friends.

Mrs. Norris, of Philadelphia, widow of the late Auditor General, Colonel Wilson Norris, is visiting relatives in Bellefonte.

Mr. and Mrs. Dick and Miss Dick, of Dayton, Ohio, departed on Tuesday afternoon for their home. They have been here several weeks, the guests of Mr. and Mrs. L. T. Munson.

Mrs. John McNeil, of Camden, N. J., arrived on Monday afternoon and is a guest at the residence of Col. W. H Wilkinson. She has previously visited here and is quite well known.

Miss Carrie Gray, of Tyrone, after a delightful visit here, the guest of Miss Stella Armor, departed on Tuesday, being accompanied by Miss Stella, who will spend some time with Miss Gray in Tyrone.

Rev. Robert Hamill, D. D., the learned and highly esteemed pastor of the Presbyterian congregations at Oak Hall Station and at State College, was at the depot here on Tuesday. The Doctor is an animated, pleasant conversationalist and wherever he may be is usually the centre of interest.

—Benjamin Smith, the stone mason on Bishop street, is ill with fever.

MARRIED.

SAMPSEL-GETTIG.—On Thursday, the 5th instant, at the residence of Mr. John Uhl, of Bellefonte, by Rev. W. H. H. Snyder, Mr. William H. Sampsel and Miss Annie M. Gettig, of Pleasant Gap.

DIED.

BRICKLEY.—On Friday, July 27, Mable Brickley, daughter of Nannie and Orlando Brickley of Howard, aged 9 years, 9 months and 15 days.

She was a bright and lovely little girl, whom to know was to love. Though her life on earth was brief, her removal leaves a vacant place. But we rejoice that God, in his goodness, has taken her to Himself to sing His praises J. C.
